ZiKA, (And how to stop it!)

My Name is James Free a
inmate at waupun Corr-
ectional institution? P.O Box -
351 waupun WI 53963-0351

Please direct any inquiries to
the above address since inmates
are prohibited from inter net
access.

I suffer from Multiple Birth
defects of Both elbows, so
sorry if my Hand writing is
a little sloppy... .

Introduction:

I lived and studied wetlands
and literally lived in a wet-
land outside Portage, Wis-
consin, and was considered a
Flood Plain. I Marveled at
the symbiotic Relationship
Between the Plants, insects, and
animals, all in harmony with
one another, and there season
Change's, with these Plants,
insects, and animals

My Real "Love" is the study

08 05 16

of insects or Entomology.
I studies and Harvested a
Variety of Wet Land Plants
and transplanted these Plants
For over decades.

the ZIKA Virus And
How to stop it HERE in the
U.S. and BRAZIL.

THE ZIKA Virus CAN BE SPREAD
by Virtually Any Blood
sucking mosquito since the
VIRUS IS SO SMALL.

In Wisconsin THERE ARE

08 05 16

49 to 50 different -

VARIETIES\ SPECIES oF Blood
sucking Mosquito[ES].

How to stop the ZIKA-
VIRUS.

In the 1990s when I was
out in the streets of Madison
I REMEMBERED the the
DEPT. oF NATURAL RESOURCES
in MADISON, Wisconsin EITHER
Sold or was SELLING OR
through Pg 4 A Public

08 05 16

Company A: Mosquito-
Egg's (that come on strips)
that can be put in our
Wisconsin Lakes, streams
infested with Mosquito
LARVA (Approved by the Wisconsin
D.N.R.) this AFRICAN Mosq-
quito Does not drink Blood!
it is strictly a NECTAR
DRINKER only

The REASON why the DNR
HERE in Wisconsin sells or
Allows this Mosquito

08 05 16

to be introduced into our
Wisconsin ecosystem

- 1 this AFRICAN Mosquito only
Drinks NECTAR From plants
only
- 2 It EATS Voraciously All 49,
OR 50 DIFFERENT VARIETIES OF
Mosquito LARVA\ LARVAE

Since this SPECIES will
Replace the other Mosquito
SPECIES the NEGATIVE
ENVIRONMENTAL impact

08 05 16

will be Virtually ZERO 0

it has been used here for

YEARS without any Negative

impact to our Bats, or swallows

OR Dragon Fly Population(s)

introduced to Florida, And

California, it will spread and

be a BARRIER. Against future

incoming Pests brought in by

ships From other Countries.

the Most Common Means of

incoming Pests in the U.S.

08 05 16

PLEASE Post this on As

Many internet sites As

Possible! PLEASE

Placed in Brazil it will be

the Dominant species and will

eliminate many other ~~op-~~
Diseases ^(and) around the world.)

James Freer.

there are no meaningful Rehabilitation within our Prison system

of Wisconsin, its just a way to employ jobs and Make \$

08-05-16

Rehabilitation must come from
within ourselves as prisoners
you should hear how I have
(most likely) have made a ^{new} new
DIABETES Medication But
Sadly cannot convince
a Patent Lawyer named
William "Bill" Wallis ADOLFSEN
at Andrus Intellectual
PROPERTY LAW 4600 american
Parkway suite 104 Madison WI
60353718 to hear me out.

Bill Wallis to Contact me HERE
AT WAUPUN.

Foot note

In 1941 EVE OF world war 2
our M.I.TARY had only Bolt
Action RIFLES. what SAVED so
MANY SERVICE MEN in WWII
was the 8 shot GARAND RIFLE
designed by A inmate in Prison!
