

Public & Private integrity must be  
the same

We are living in a world with a lot of hypocritical people. That's why we have the law killing our black men and getting away with it. That's why we have mayors, judges, DA, school teachers, senators, pastors and other public figures taking advantage of our children and committing crimes.

The main ones out in the forefront ~~that~~ that tells others don't do this or that because the laws and ~~policies~~ policies says this or that. So very ones that are violating the laws and ~~policies~~ policies. But when a citizen violate that same law or policy; you want to give them the maximum sentence or try to bury them under a prison.

I feel these same people who is violating the laws and policies like they can't be touched and want to do whatever they want to because of their status. Should be brought before a judge and sentence to the maximum and bury them under a prison just like they have done the citizen that have broken some of the same laws they are breaking.

We've prayed long enough ~~it's~~ it's time for action not violence. My grandma use to tell me all the time. If you don't stand for something, you will fall for anything. It's time out for falling for anything. We are better than that. Enough is Enough. Truth of the matter; a lot of these public figure private lives is bad as their public lives. They are bullying around their wives, children or girl friends etc. Aggressiveness doesn't happen overnight it's a period of time. (1)

This is mean what I am about to say. I understand that there are good cops out there. But when I told the police, I didn't know what was going on. I was told one bad apple spoil the whole batch. That I should have known what was happening ~~in~~ in my home.

We as people don't know everything but when you are arrested with co-defendants, you are automatically labeled as you know what was going on. So when a cop shoots an innocent black man, the citizen should automatically label them as knowing what they was doing.

Sometimes when you give a person a taste of their own medicine it don't feel good. I am not saying shooting or harming them. I don't believe in eye for eye or tooth for tooth but I believe in equal justice. As a citizen get a chance to sit on jury trial of police or public figure. The citizen should make sure they get the maximum sentence and they get buried under the prison. Citizens should throw away the keys and lock them away for good. Just the same way the law enforcement throw away the keys and lock away the citizen up for good. They should reap the same benefits.

Citizens you let them know you are not playing with hypocritical public figures in our communities. You will get them out of those position and offices. To our citizens who don't really care because the cops or ~~not~~ no public figure have ever disrespected you. So you can care less about what's going on.

A lot of you are in on what's going on with the racism or you are one of those who is sick and tired of the drug dealing and shooting etc. (Some of you make false phone calls to the cops about your own race in these communities. Because of what appear to be. I've seen and heard of a lot of these phone calls. Example: My next door neighbor had a lot of traffic coming in and out of his home. So the cops was called to his home. When the cops arrive, they asked him are you selling drugs out your home? This man was looking stupid because he didn't sell no drugs, he humbly said No sir I don't. The Black man said I cut hair. Quote I am a Barber and has a permit to cut hair in my home. He showed it to ~~him~~ them. So now the cops looking stupid as well. ~~Because~~ Because they was called out for some foolishness. But you know that wasn't the end of that man trouble. Everytime he look around a cop was riding by his house slowing and watching his home. Even though this man prove he was legal to do what he was doing. I must say this some of our blacks in our community has too much idle time on their hands in these communities. Instead of helping each other, we are busy tearing each other down. I've seen this type of situation happen a numerous of times. Innocent ~~black~~ African American has been put in jail or prison because of what appear to be. Innocent African American has been harassed by the police because of what appear to be. A lot of you are trying to help. The cops do their jobs. When they should already be doing their jobs. I am not saying keep your mouth shut. Listen African American the cops play us against each other. Then sit back in talk about how easy their job was. Make them earn that paycheck. Think about it why should you do their job for them. I know how it is with the drug dealing on the corners. I lived in the hood. I am not a drug dealer. But I've seen the operation of citizens. You criticize, Oh I am sick and tired of them selling drugs but you be the first one in their jail like you love them. Some of you ~~keep~~ accept money from them. Oh the drug money is good until you get mad at them. Then you want to call the cops in rat them out. No crime is good because it affects

(2) The whole community. But at the same token allow the

Cops to earn their pay checks.  
stop being hypocritical with your peers in society.  
alot of citizen causes alot of african american  
to go to jail in prison because of their false statements.  
We need to stop defeating each other in so many ways.  
This has got to stop.

This is why it's important to hold our law enforcement  
accountable make them do their job like they suppose  
to. My cousin was shot in Killed Sept 14, 2015. Apparently  
the cops wasn't looking for scooter to hard. They ~~was~~ knew  
his nickname. But they was not determine to get him.  
April 29, 2016 scooter murder Quentieria she was found  
deceased in her car with multiple gunshot wounds early  
that friday. They found items in his home from my  
cousin and Quentieria. This shows that if the law was  
focus on more important things they could have  
saved Quentieria life. This boy scooter didn't try  
to run. He was working in that community at a  
factory.

Our cop's mind set are very troubling these days. all  
they think about is locking people up for nothing.  
This is becoming a normal trend for them. Such as the  
man in Atlanta that was misidentified and charge  
with murder. Lost everything his job. Still out of work  
after they held him in jail for a month come to  
find out he was not even the person who committed  
the murder, just happen to be in the area. Do you  
think the cops call this black man job. To say  
hey I misidentified this man, I was wrong. Heck  
Naw. They left these crimes on his record. People  
being detained in jails without charges for months at a  
time. Because they don't know the law or scared to  
open their mouth. But if a citizen ~~kidnap~~ kidnaps someone  
and hold them hostage. They will be charged. So  
what makes this legal for the cops to do. you cannot  
hold no one because you want them to do your  
job for you.

alot of these cops who are disarming these guns like this, needs a back ground check. The citizen needs to go back in investigate these officers to see how many write ups and how many times their chief failed to put them on desk duty with counseling. Cause alot of these shooting can be prevented, when the citizen's find out that the leader of that Department failed to do their job. Get them out of their office and all the workers under him or her. Because hiring a new leader is good. But can be of no affect. When you have people that was under the old leadership that has the same old mindset; don't want to change it. Sometimes you have to tear down a thing to build a new foundation; that is ~~accurate~~ accurate and must ~~definitely~~ definitely work for the people in your community. Anytime anyone take oath in a community ~~office~~ or government office. Should take it seriously, because your integrity is on trial. It's important to do right by the people in your community. Even the people who think their position is the smallest in the community, such as a police consultant store. Remember your integrity is on the line. It's important that you do right by the people that comes to your business. Why is it important for everyone to do right by the citizens. It's the taxpaying citizens who are putting the money in your pocket. The citizens make up the community. Guess what they have alot of say as to what they will and want allowed in the community. I think alot time people forget their purposes of why are they cops, judges, DA, nurses, school teachers, etc. We need to reevaluate why did you choose the career; your in? I am by hope you didn't choose your career based on the following: I can be deceitful and nobody will know. I don't like this particular race, but this is my opportunity to destroy everyone of them. Are you one of those who would do anything to get to the top of the ladder; so you can say I run this nobody tell me what to do. And I will run it how I want to. No citizen or anybody going to tell me what to do. I hope this is just not a opportunity for a better check.

Citizens it's time to stand for something. Stop falling for anything. What you have to say does matter about the killings done by the cops and any other subjects you feel the need to be addressed.

Citizens if it wasn't ever a time to pull together: stop fighting each other, stop killing each other, put your weapon down, Gang members call it truce (find peace with your rival gang members it's not worth it.) Stop raping and killing innocence children. Stop robbing and get a job. Stop carjacking. Stop assaulting each other foolishness. Stop abandoning your children for a drug, woman, man, jail or prison those babies ~~are~~ needs you. you don't have to put drugs into your body to cover up the pain on the inside of you. It's time to deal with what is bothering you. Stop using the blaming game. I wouldn't be the way if this is that happened to me. Older people stop tearing our youth down, help them to become better men and women. Grown people stop taking advantage of ~~children~~ <sup>children</sup> vulnerability sex trafficking and child pornography. Religious people stop brainwashing people to get them to do what you want them to do and teach them correctly.

Everybody needs to stop doing the things that leads to destruction. There are so many productive things we can be doing. ~~Cops~~ Cops come on now enough is enough.

I want us to start caring about each other more. Just because something is not happening to you today. Tomorrow maybe you're turn. Then you will want people to be concerned about you. So stop all this self centeredness and judgemental mind set. It's time to take ~~that~~ <sup>on</sup> a different mind set. that would help each individual around you including yourself.

There is no longer no excuse for the foolishness  
going on in America.

STOP, Think and change from destruction

to

peace, unity, love and harmony in  
America
