

# • Blameless Generation •

There's this misconception  
About my generation  
They say that we're lazy  
And don't value education

But how can one stay focused  
Surrounded by temptation  
Don't blame us  
Blame this fallen nation

Blame those before us  
Who believed in separation  
Placing signs over bathrooms  
With racist quotations

I'm just a believer  
I believe in seeking the truth  
So you can keep your education  
I refuse to be fooled

Deceived by those before me  
Authors of their own books

All I have is inspiration  
My inspiration will lead me through.
