# "I See It"

I Rise to a new level - freedom  
Changing my life's bad habits  
Rebirthing methods from within  
I'm an expectant healer - The work is hard  
Low self esteem, Impatience and other  
Negativity weakens change  
My new controls are goodness, gentleness,  
Humility and self awareness  
The top of the Mountain is high  
But at least I see it
