

As Alive As We Can Communicate

Mr. Riley,

This RR (ReconnRpt.) should be a real hoot... everything considered. Viz: I wander into the chapel to attend Chaplain Max' sermons from time to time. Naturally, several of the Sheeple there keep a wary presbyopic eye upon me - in their side glances of course, as if Lucifer himself were in their midst. I'm sure it doesn't help their reserve banks when I enter whistling [♫] This lil light of mine [♫] I'm gunna let it shine [♫], but it is what it is, isn't it? Why is it Idolators are intrinsically skeptical of iconoclastic Hierophants whistling such a tune?

Mind you, once I'm inside - I never do more than simply sit there and observe their congress of ignorance, with a sort of humorous admiration. For instance; Yesterday, as I observed their certificate ceremony ack'ing a completion of a sexual integrity indoctrination, it became obvious: Glib students are fed the answers which produce their HAVEness (s. the result of creation) which re Forms their BEingness paradigm of DOingness. Just like a Piedpiper, leading sheeple to the Alter - Isness of dysfunction. Its Genius! I get it now; Homo Saps never ment Homosapiens [fr. L. wise, intelligent], but rather Homo [fr. L. humanbeings] and Sap - 2. a foolish gullible person. Its that faction of humanity I've long identified as "Cretins" [lit. wretch, innocent victim fr. L. christianus Christian], degraded with their Mystery Sandwich Implants.

Is it a coincidence that a majority of them are herded into the lengthening psychotropic dispensary line while they're waiting for the chapel to open? Isn't it beautiful! And ^{the} Luciferous are anathema to these architects of dysgenics... since the ideal of eugenics has been successfully vilified. Yes indeedly! Consortiums of consumerism, those Piedpipers of Compromise, Rule!

Consider this; Last week I was having some photocopies made of our SPO fliers to post up in the housing units, and the chief Psychiatrist, Dr. Jung (no Kidding) passing by, ack'ed my query "how's business", with a confident chuckle retorting "its a growth business which is doing great!". Imagine that, I said. Psychiatry a growth business. Does that mean Psych-"treatment" manages the problems instead of solves them - thus maintaining job-security?! "If you ever meet anyone who'd like to assume responsibility for their own condition - mention our Sem Grp. convenes in the Chapel Classroom every Tuesday afternoon", I said. Such temerity, I know - huh? Freedom is just another word [♫] for nuthin left to lose.

Why is it I find certain happiness in bullbaiting symPATHETIC bullies? Well, maybe because I'm certain they understand my POV, and therein I know they're forced to face their decision to compromise their integrity

and comport to status quo. Yes sir, call me a quixotic fool, but: HAPPINESS IS — what I can get away with! And its so much better when the egomaniac opponents are SP' playing King of the Hill... trapped in their Games Condition like Dragons hoarding their treasure.

Yes sir, you are correct: The only thing which can actually remedy a general insecure feeling is a renewed faith in JUSTICE. Anybody who considers me a clay pigeon will be making a dreadful mistake! "The achievement" LRR sez; "depends less upon educating and restraining than upon the individual knowing his rights and himself using them". Life is a contest of overwhelmings, for pioneers with ambition. Don't ever forget that "Pal" (Paladin)! despite fabian restraints.

We both well know Correction of things not wrong and neglecting things which are not right puts a tombstone on any Org. or Civilization, so in Investigating the out/Plus points, why do we ask WHY? Stupidity is simply the unknownness of consideration — so we consider the why's with an intent to realize How to handle situations — right? So let's consider this Scientology Prison Outreach, I've been engaging in almost three years now:

Enlisting Players (+/-) to produce Valuable Final Product, in apparent contrast to CDCR recidivism products, and veering from duly delegated Criminon Terminals with deplorable statistics of course blows. Dare we consider this three universe game? Scientology +/- Calif. Dept. of Corrections +/- Me? My picture belongs in the dictionary next to the word: quixotic, doesn't it? I mean, just who in hell do I think I AM, riling those Giant Dragons?! With a sigh I must admit, Boredom is the bone which makes Antagonism a preferred MOTION, stirring up problems to develop opportunities for recreation. Who else but Me, would dare stir things up, sir? You are my Minotaur in the china shop — the Minotaur which makes Theseus victorious. As you well know, the Minotaur symbolizes the 'spiritual struggle against repression', Joe — won with the weapon of LIGHT, since according to legend, it was Ariadne's luminous Crown, lighting the gloomy passageways — and not simply her ball of twine, which enabled Theseus to emerge from the labyrinth victorious. So let's INVESTIGATE!

WHY the difficulties in this Scientology Prison Outreach, which aspires to produce this Valuable Final Product: "RESPONSIBLE, SELF-DETERMINED PRESENT TIME ASSET IN DYNAMIC EXCHANGE WITH OPTIMUM AFFINITY + REALITY + COMMUNICATION = UNDERSTANDING = FREEDOM"?!?

Scientology Volunteer Ministers working with Dept. of Corrections as an asset in producing Rehabilitation. I mean, is rehabilitation just too impossible? Or is it just too counter productive for a Tone 2 Society with a degrading agenda? Hell, look at Calif. \$15.4 Billion Budget for Criminal

Justice Programs (www.sanquentinnews.com - June 2016 pg 6), to see the largest portion appropriated for CDCR, is earmarked for "pharmaceuticals". Apparently all the [mental] illnesses are being "treated", so it seems Something CAN Be Done About It! I know that I probably shouldn't say it out loud here, but didn't Hitler have a much more humane and logical solution for social outcast? Doesn't anyone remember what the Chosen People were doing in the Psych Industry back in the 1930's to undermine that Nation? Faux pas? I'm just sayin... Prisoners, these days, were full of rebellious vigor when they were exiled — and stripped of their rebellious dignity... finding a need to fill the space of invalidation — where lo and behold the sympathetic Psych enters the equation, willing to validate their need To BE coddled as misunderstood Victims. "What you need are free drugs", the Psychs sing in order to capture a drug addict's Attention. And now: "It's a growth industry which is doing great!" Yea... free lobotomies and sterilizations! Stupid criminals voluntarily line-up for it, don't they?

Could it possibly be simply the availability (along with the "Attention" promotion) makes this phenomena possible? Filling the space of invalidation — that's the significance with these ARC-broke souls! They withdraw from the pain — and reach out for a reason and met by Priesthoods of Amnesia, passing out free Bibles, Korans and psychotropics to fill the void, until they're returned to restimulative environments — unprepared.

I wonder, Joe — can you imagine how much of a difference it would make inside these Penal Colonies, if there were as many Scientology Handbook — booklets available, restoring ARC with the Logic of Knowledge? Religions donate boxes of Bibles, Korans, Religious Magazines, literature and such, to be disseminated in the Chapels — and specifically for those in Segregation/Security Housing Units... so how much PR do you think it would require to establish agreements to fill the void? Is there a logical justification why this overt of omission has not been handled? Are we getting closer to the real WHY which opens the door?

Of course you're correct; A PERSON MUST HAVE AN IDEAL SCENE WITH WHICH TO COMPARE THE EXISTING SCENE! If one has no familiarity with how an area ought to be, one cannot easily spot outpoints (illogical data) in it. So, in this three universe Game — there is the Type Three phenom to consider with Me, contrasted by degree of functionality within the Cycle of a Universe, and the "ability to tell right from wrong"... right? Aside from that, all I can judge is the Official Purpose — Mission Statements of: "The Aims of Scientology, their Handbook sez is: "A civilization without insanity, without criminals and without war, where the able can prosper and honest people can have rights, and where man is free to rise to greater heights, are the aims of Scientology." BUILDING A BETTER WORLD, it sez: "Imagine a world where people have the technology to change conditions and create happier, more productive lives." Okay then... send in the Volunteer Ministers — in Scientology is defined as: a person who helps restore purpose, truth and spiritual values in the lives of others, using basic fundamentals of Scientology. Through the application of Scientology we are taking the only effective steps to arrest and

reverse the deterioration of a world where the individual is increasingly beset by economic, political and social forces that seem more and more overwhelming. It concludes with: "A society to survive well, needs at least as many Volunteer Ministers as it has policemen. A society gets what it concentrates upon. By concentrating on spiritual values instead of criminality a new day may yet dawn for man."

Correspondingly, the Official Purpose - Mission Statement of 2nd Mule Creek State Prison is: to protect public safety (1st), ensuring the Safety of Dept. Personnel (2nd), and providing "proper" care and supervision of all offenders under our jurisdiction while (lastly) assisting their re-entry into society. Okay then, "Proper" would entail Law. And for the purpose of Religion we have: U.S. Constitution, Amendment #1 - Freedom of Religion, which in matters regarding Prisoners is regulated by a Federal statute 42 U.S.C. 2000cc Religious Land Use and Institutionalized Persons Act, which permits a standard for redress. Furthermore, Calif Code of Regulations, Title 15, section 3210 'Establishing Religious Programs' (a) states: Institutional heads shall make every reasonable effort to provide for the religious and spiritual welfare of all interested inmates, and (b) Depending upon the number of inmates, chaplains may be employed or their services may be accepted on a non-paid volunteer basis. Then we have a Dept. Operations Manual, Article 6 Religious Programs, section 101060.5 Religious Program Activities: 'shall include activities that will encourage inmate participation. The activities may include the following: • Regular Worship Service • Special Religious Observances • Religious Education • Interfaith Services • Meditation Services • Religious literature Distribution • Outside Religious Group Participation • Self Study Religious Courses • Speech Forums • Service Projects • Religious Interest Groups • Religious Societies & Orgs. • Participation in Community Betterment Programs. Then we have DOM Article 9 Volunteers Section 101060, "Responsibility" 101090.5 Delegating responsibility to Mule Creek Community Resource Manager. The Approval - Appointment Standard (section 101090.6) is based on: Need of Service. Time/Frequency of Service • Space/Supervision. And then section 101090.10 relates to "Volunteer Minister Rights and Responsibilities", which states: Volunteers who wish to appeal a decision/disapproval of Volunteer position/program, may write to the Hiring Authority. Which in this case would be Warden Joe Lizarraga. If "Need of Service" is denied per "number of Scientology Students", then suggest section 101090.6.1.1 'VISITORS', stating: Wardens may approve a Volunteer to meet with an inmate during regular visiting hours for the purpose of facilitating specific program services.

Yup, it's a bureaucratic labyrinth alright! But if anyone should know, you know that the key to the handling of any area, to improve it, is to bring order. But there is a datum about this: Everytime you put some order into an individual's life or a group or society, a little confusion blows off. It appears and then it dissipates. Just ignore the confusion - it's an indication of Change occurring.

The wrong thing to do is give up. Remember, no action where action is needed, leaves a situation in place - and it will only worsen. Situations do not "go away" by themselves. They are either handled or they worsen. "puts a tombstone on any org. or civilization", LHM sez.

When I word clear LIFE and then LIVINGNESS, I consider the contests in OVERWHELMINGS in a CYCLE OF ACTION, Joe. I wonder

19 August 16

I love it! No return address on the lope that sends (yet another) promise of a New Civilization taking this thing over. "I turned over everything to them, including your personal stuff." Is this a BLOW, Joe? Or is it easier to rather call it a "Disconnect"?

Let's see: Disconnects (and Blows) are admission of Incomplete Cycle of Action, as I see em producing the same Sad Effect - cf. NO-RESPONSIBILITY in Handling force.

Theta solves Problems, sir! And I do understand, boarderline death zone is at Antagonism. And if PTS indicates SP enturbulation, resisting other-determinism appears overwhelming.

Ahoy matey! Scientologist betters the conditions of himself and the conditions of others by using Scn. tech. "one who controls persons, environments and situations. Is it too much Randomity for you - to uphold Maritime Code #1, #4, #7, #9, #12, #18? Its your Track - so its your Case Condition to Consider. My hands are clean and I'm okay with whatever you determine - for you, Sir. It is what it is, whatever it is to a PTS with Answer Mungers, deciphering vagueness. I love it! How do I respond - which Bank account? Survive or Succumb? Didn't I say something about

FREEDOM MAG's mission statement prompts me to share my story about establishing a Scientology Prison Outreach (SPO) study group here at Mule Creek State Prison - Lone, CA, which is beginning its second year of existence now.

My story begins in 1985 though, if I may preface this SPO WIN!: Turning 21 in prison, I'd picked up a Dianetics MSDMH book, and my LSD & PCP addled L.A. soared exponentially as so many MLI's were finally given significance & learned to inspect for corresponding cognition WIN's. I immediately wrote a letter to every Calif. Mission/Org. listed in the book requesting more LRH tech., ultimately receiving a reply from Tree Nebeker, who worked with me to develop an Extension Course program at Duell Vocational Inst. - Tracy, CA. We were able to interest several dozen prisoners who were doing course work by the time I ended-up being transferred to Folsom Prison in 1987, where I fell out of communication with Tree, and the extension course program.

Though at 25 years old in Folsom, I took what I'd learned of LRH Study Tech. and applied myself to obtaining a GED. Then there was also the radicalizing demagogues who were disseminating their propaganda to satiate the burgeoning prison populations Answer Hunger which I'd also become fascinated with. Until I was released from prison in 1990 to Yuba Co, CA where I met a meth head gamine who eventually cleaned-up her act and got her boys back from their grandmother. I remember when her rambunctious lad was sent home from second grade with a psych. referral to be added to the Ritalin rolls; I had learned enough about the psych. industry and Preventative Dianetics to rather homeschool him - again putting my knowledge of LRH Study Tech. to use. Those were the best years of my life, thanks to Tree. Assuming more and more responsibility, my dynamic exchange was the best ever! Until the devastating meth epidemic hit home and National events triggered demagogic implants prompting me to rise an inverted U.S. Flag at Washing D.C. in 1995, beginning my seditious crusades and adding to my GPM ridges. "The greatest good for the greatest number of dynamics", was the only think which kept me from blowing up our local courthouse of tyrants with the explosives an Agent Provocateur dropped off at my house in April 1997, which I'm serving a life sentence for now.

The ensuing decade of despairing rage then took me through a couple years of solitary confinement before being sent to Pelican Bay, where I determined to teach tyros to THINK for themselves. After a few years of that volatile vocation I was evicted, and a few years later, in 2008 (10 yrs into my life sentence) I was transferred here to Mule Creek, where

I threw-in the proverbial towel surrendering myself to a wee glee of insanity for a reprieve from the ennobling responsibilities. Consequently, mock-heroic displays developed gradient degrees of that insanity until, discovering the dozen or so Sci./On books removed from the prison library shelves - I located them in the Chapel's storage room where I 'sequestered' them to my cell, certain that my reprieve was over!

In 2013, Joe Riley at BRIDGE Publications, had answered a letter I'd written proffering my usefulness here as Scientology's Inside Guy. Then he came in to visit with me on X-mas day ... my first visit in 16 yrs of exile! My utter Admiration snapped me out of my irresponsible condition right then and there, I'm glad to say. Yet it took most of 2014 to recover my integrity while voraciously studying all the material Joe was sending in through the Chaplain. And by Jan. 2015, I'd won a designated time to officially conduct Scientology Services in the Chapel Classroom. A generalized list of WIN^s for 2015, other than my own recovered Responsibility, include: An increase in Criminon Course applicants and completions - making myself available to help resolve problems while also polling students assessment of Criminon Services to present for consideration; An entire facility of Staff and Prisoner alike witnessing several mens personal transformation under Scientology's standards; A flow of men who've been introduced to Scientology for the first time, clearing up MU^s - be it from reading IAS/ABLE/Bridge Publications, watching our DVD^s and/or listening to our LRH CD Lectures, or simply by picking up xeroxed articles we display for dissemination at our weekly group meetings where we discuss the tech. and demo. what we're learning to apply in everyday life situations. Those of us who've determined to become committed students of Scientology have completed the Basic Study Manual, and have a new-found appreciation of study tech. we'll be able to Help others with from here-on; We've changed erroneous Policy which was restricting personal CD purchases from Bridge Publications; We have managed to get Religious CD/Book titles from Bridge added to authorized core package vendor catalogues; We're establishing comm. lines with Prison Policy Makers in Sacramento; And I'm told that more Scientologists are developing an interest in becoming more involved too.

In this new era of Prison reform concentrating upon actual rehabilitation services, now is the time for Scientology's VM^s to get involved in this particular Fourth Dynamic Salvage campaign! Aside from the SPO groups to Help prisoners rehabilitate their response-ability to face life challenges, I'm also postulating PR introduction of the Personal Efficiency Course to (the CDCR) Prison Guard Training Academies, eventually making way for Life Improvement Course classes for all prison staff. There is also an opportunity to introduce the Science behind e-meter consultations to screen candidates for parole board release date considerations. And there are Transition Housing contracts available from CDCR, to Help early release prisoners reintegrate back into society. The Fourth Dynamic salvaging opportunities with the U.S. Prisons are ripe for picking

SOMETHING CAN BE DONE ABOUT IT!
