

RETALIATION IS THE NAME OF THE DISEASE

LITIGATION IS THE CURE!

I met with the Council on State Governments Justice Center on Tuesday, August 23, 2016. On Wednesday, August 24, 2016, IPS Investigators called me over to the Administration Building to "Question" me about some post card that was sent to a staff member; a post card I had absolutely nothing to do with. Coincidence? I know not. These bastards are all about the sickness that is retaliation, but they picked the wrong dog as this one bites!

This "Post Card" was directing a layabout staff member to read my blog. Now obviously some fan of the blog wanted this dolt, who I don't even know, to read the blog. Great for them, but what the fuck does it have to do with me? The Court will figure all that out.

Now these IPS know I ain't the one, they don't dare confuse me with someone who gives a fuck as I certainly don't and my actions support that. Last time I was here I went after the former commander of the IPS, Tommy "The Penguin" Ficco" for his involvement in a sex for information ring. They retaliated against me for that and eventually had to give me \$10,000.00 cold hard cash. Fuck em' I say. This time they will pay as well. This latest chapter only piles on to the fact that Tommy "I'm Keith Nano's bitch" Perry fabricated a d-report against me and I have the most effective civil rights attorney in the area representing me on that big fau faux. Tommy better buy some new packs of BVD's as a lot of nervous gut wrentching will be coming his way. You fucked up Tommy, and by the way tell good ole Keith to, "Stand up when you talk to me! Oh, my bad, you are standing."

I've been quiet here at NorfolkWorld, I've got to work on going home, but if they draw first blood I may have to come out of semi-retirement! It will at least keep people busy. I can wrap this bitch from the box so I am fucking bulletproof. Fuck em' if they can't take a joke and joke if they can't take a fuckin', but don't falsely accuse me of shit. I'll see folks in court! Trust and believe!!!
