

## PRISON/PRISONER

### SEXUAL DEPRIVATION

As punishment depriving a psychosexually mature individual of his natural biological DNA genetic instinctive driven directive biological function of sexual intimacy with his biological counterpart is <sup>grievous</sup> ~~cruel~~ and a human rights violation of unparallel proportion and simply cannot be justified as a means of punishment for his proported societal-classed "objectionable-conduct". One has nothing to do with the other, one's sexuality has nothing to do with his misconduct. We have two basic instincts, food and sex. Food is needed for our survival and sex is needed for the perpet .ual-survival of the species. Both are basic needs. While it would be unthinkable to deprive a human being of food, likewise it should be just as incongruous to deprive a mature individual of sexual food, simply because he is being held hostage on a slave plantation. SEX AND FOOD ARE DEEPLY JOINED: Food keeps the person alive and sex keeps the race alive., that is there similarity: Sex is food for the race and food is sex for the individual. Hence there is a point to be remembered, if you repress sex you will start eating more food to supplement and compensate for the absence of sex.; obessity among single women is a class<sup>c</sup> example. It goes without saying with food and sex humanity would perish and cease to be. Knowing this those who have forced celibacy is bound to create sex-obsession in their victims

To deprive a person of one-half of his natural insinctive functioning, sex with his biological counterpart is life-negative. The moment a person becomes life-negative he becomes . <sup>NEGATIVE</sup> And it is easy to exploit the weak, to enslave the weak. It is easy to dominate and destroy the weak. When you are taught or forced to live under life-negative circumstances you become afraid of talking about things frankly, authentically You do not want to talk about sex, you want to hide it as if it does not exist in your life. But deep down inside you are seething, boiling and thinking about sex 24/7. Modern psychologist survey that each man thinks about sex at least once every three-minutes and women think about sex once every seven-minutes.

You should know that pornography is not a natural phenomenon, it is a sex-repression-phenomenon. Hence, the tremendous interest in the women's body. Pictures, statutes, movies, they are all either directly or indirectly are pronographic. Unless there is something of sex in it you are

not interested: We all know sex sells. and "we" are all addicted to the euporic pleasure of ejaculating or having an orgasm during copulation.

## S E X   A N D   M U R D E R

They are connected, if you repress sex too much you will become MURDEROUS. In fact, murdering somebody is a perverted act of sex. Men want to enter the body of the women. If he is not allowed to, he will start finding other possible way to enter the other's body. he will engage in deviate <sup>PERVERSE</sup> sexual fantasies, generally degrading to the female, MASTURBATION being a source of relief. If not he'll become homosexual and enter the body of another man. If he cannot find a man, he will find an animal; and if there is no sexual outlet to release and releav<sup>ing</sup> his sexual frustration he will become enraged. Sexual energy repressed become anger, it become murderous; if a person's sex is repressed they can easily be made to kill others and be killed. In the past three thousands years ~~we have had~~ "we" have fought well over five thousands wars. It seems absolutely INSANE it seems as if "we" are living only to kill each other. What 's wrong with mankind? No animal makes and wages war on other animals or members of its own species.

REPRESSED SEXUAL . . . IN PRISON: is bound to create troubles for all concerned. We all have read or heard of prison murder and stark violence in prisons, disgraceful. Man is the only perverted cruel creature<sup>ARE</sup> in existence; all kinds of perversion; sexual deprivation makes one cold about sex and cold about everything else. Your empathy, your humanity, your very source of warmth disappears; once you become cold you lose all empathy for others.

SEX IS THE SOURCE OF ALL LIFE AS WE KNOW IT: It is how all life is created It should be respected, worshipped and held sacred. Sex is the most sacred phenomenon in existence, it is the sparkplug, the catalyst of all our lives If life is not sacred than sex is not sacred.

DESTROY THE DIGNITY OF A MAN and he'll easily become an obedient slave. A And the best way to destroy his dignity is to make him fight against himself; he'll start feeling "guilty" because he cannot conquer. No man can TRULY conquer his need for sex or food. If you fight with your sexual needs you are dividing yourself into two persons; you are becoming

split, willing entering into the world of the schizophrenic - you are becoming diseased. Just your own energies will be dissipated, you will become weaker, as if your left hand is fighting with your right hand; neither will or can win. And a greater thing will happened of long-range consequences; if you cannot escape or overcome your addictive sexual urges and then you will start feeling so "guilty, ~~so "guilty"~~, so condemned, so unworthy that you will readily bow down to any stupid person. Anubody who is a good pretender, a hypocrite, this is how cunning people have dominated humanity. It was found out early on that if you want to dominate humanity, make them weak, guilty and unworthy.

DESTROY THE DIGNITY OF A MAN, TAKE ALL GLORY AWAY FROM HIM, humiliate him.

Imagine if you will being forced to engage into autoerotism as your only means of obtaining sexual-food while being held a slave in a cage by a cruel, vile, murderous barbaric state government agents; these savages have found such subtle ways of humiliation that they don't even come into the picture at all. Slave-keepers/guards leave it to the prisoner to humiliate himself, to destroy himself; he can neither escape nor overcome the sadistic-torture and maltreatment of his captors.

Prisoner learn a form of "psychological-genocide", a kind of slow suicide. Yes, there is the possibility of transcending sex, but it is not done as an alternative repressed sexual deprevation.; it cannot be done if you are against sex and it is a great experience. It can only be done if you befriend the energy, if you absorb the energy, if you what is the secret of your sexual longing, if you can find the key. Why we are so interested in sex? It is not just a question of biology, it is more a question of spirituality.

From my own experience as to why people are so interested in sex is because that is the only naturally-given window into existence. In deep orgasmic state when lovers meet, melting and disappearing into each other for a single moment, that is the divine, time disappears, mind disappears, ego disappears and one has a taste of the beyond, the ultimate subconsciousness. It is what the mind envision as being in heaven, floating on a cloud. That momentary taste will give you the key to real orgasmic-ecstasy. Those who have experienced this bliss have known timelessness, egolessness and mindlessness.
