Euthanasia at Old Colony

I respectfully request to inform the general public about a serious problem that is occurring in the Department of Corrections. I will address an issue that I have personally witnessed with my own eyes. The murder of several inmates at the hands of Correctional Staff.

On October 26th, 2015 I personally witnessed the death of an 81 year old man, who repeatedly complained of chest pains and breathing problems. I personally witnessed a registered nurse tell this gentleman to, and I quote- "SUCK IT UP" after repeated complaint of chest pain and breathing issues.

Registered Nurse Elizabeth told Joseph on October 21st, 2015 that it was new medication and that he should allow his body the chance to get used to it- and when Mr. Watson further complained he was told by Nurse and Nursing Supervisor Patricia to allow the medication to work and to suck it up. This comment was made in front of several other residents here at Old Colony.

Much like the ghosts of Souza-Baranowski we too have ghost here at Old Colony. The murders of Robert and Michael still haunt me, because the officers involved were later promoted and moved to other facilities to commit the same offenses again on other residents. In the Robert case I was witness to the effects that the Department of Correction had in stopping this committed inmate from taking his life. They allowed him two plastic trash bags, One he used to tie his hands behind his back, before tying one around his head. Additionally he chose to repeatedly kick himself in the chest with his size 11 boots, thus leaving bootprints on his chest, before climbing under his state mattress and proceeding

(2)

to suffocate during routine cell checks. This all occurred after he was informed of a death in his family and requested to speak to mental health.

Michael [redacted] died under similiar circumstances, he to suffocated with a plastic bag while his hands were tied behind his back.

Cory Andrade was killed because Registered Nurse Elizabeth [redacted] told him point blank-"I will not authorize any costly treatments for you , You drug addicted loser ".

Anthony [redacted] was in Attucks 3 on October 26th, 2015, had been complaining of migraine headaches from a fall two weeks previously, and was told by Nurse Stephanian it was all in his head and that there was nothing wrong. Mr. [redacted] i had a major seizure and stopped breathing three times, due to a brain anuerysm that went undetected for two weeks. An injury that was caused by a fall from his bunk, and the administering of seven staples to close a gash in his skull.

On the day that Joseph [redacted] DIED HE REPEATEDLY COMPLAINED TO Correctional Officer Michael [redacted] about chest pains and loss of breath, He spoke to the officer at 15:45 hours and was told "GO LAY DOWN- I'LL CALL MEDICAL", 45 minutes later Joseph [redacted] was dead from a massive heart attack that went untreated by Staff or Medical personnel. Joseph [redacted] was not discovered for another 2 hours when residents were released for evening chow. The policy of Corrections states that security rounds be performed every 20 minutes to half hour. So where was Officer Michael hallman during this time ? Was he surfing the internet or sleeping in the control center ? Either way Joseph [redacted] lost his life, Because this officer was too busy to make a phone call in regards to a serious medical emergency. Then this same officer had the tenacity to post the words "DEAD LOCKED" on Joseph Watsons door, as if he was on trial.

I hope that this enlightens the opinion of the general public about how your tax dollars are actually being spent.
