### - THE GREEN CHICKENHEAD TO SPEARHEAD TRUMP RELIEF EFFORTS IN MEXICO

In a shocking revelation presidential candidate Donald Trump has slated the MCI NorfolkWorld/WallyWorld Food Services Director, The Green Chickenhead, to be his "Nutrition Czar" to the country of Mexico. Trump released a statement saying, "Many of these illegals swim across the Rio Grande with a deep hunger for American Cuisine. If we can feed them down in Tiajuana or Mexico City with three day old pancakes or uncooked cottage potatoes then maybe they would stay put." With this concept in mind Mr. Trump has contacted the Green Chickenhead and sought his pledge of loyalty to be the Nutrition Czar. The ChickenHead, in all his Pink Shirted splendor, responded, "I would be proud to serve three day old pancakes to Jose' and Hose B' down in Ole Mexico. I certain I can "Soy Burger" them into stopping the illegal flow of brown heroin and Columbian marching powder. Afterall who could resist my flavorless carrots, headless brocoli, or watery jello. La Cordon Bleu ain't got nothing on me!" The Donald had a couple of conditions though; first, The Green Chicken-Head had to "lose the women's jewelry" and forego the cotton loafers he sports around WallyWorld. The Donald stated, "I'm against same-sex couples, not that there is anything wrong with that, but I just don't want to set any bad examples for Senor's and Senoritas south of the border." Taco Bell has released an oppositon to the appointment of the Green ChickenHead. It read: "Fast food misses this glorified burger-flipper and awaits his return to Mickey D's."

### - NORFOLKORLD HAS GONE TO THE DOGS / CANINE URINE TESTS TO BE TAKEN

You can't get a friggin shower at NorfolkWorld but one of the many dogs that roam this shining example of human oppression can take a swim in their own personal doggie pool. As IPS informants water the flowers and the Inmate Police Force waters the baseball field, men with medical conditions, infections, and MRSA are told they will be "lugged" if they are caught in the shower. Some of the dogs have also been acting very strange. While lounging by their personal pool many were seen bobbing their heads to the sounds of Bob Marley and Peter Tosh coming from their "handlers" MP3 player. They also kept begging for more "treats" (all paid for through the inmate benefit fund), which led officials here to believe that they may be Smoking the K2 everybody else out in the fields is smoking. Rover and Lassie have brake-light red glassy eyes and will only respond to the commands "Yo Dude" and "far out". The crack security team here has decided to hound these hounds by purchasing some new urine testing equipment. These new cups attach to the fire hydrants around here and when Snoopy lifts his leg, whammo!, a test is givin! One dog recently was rumored to have tested positive for estrogen causing many to believe there may be a "sex for booby pills" ring operating here. Also, peanut butter sales have been up in the canteen and many have reported that the dogs have "Skippy Breath". Nuff said!
