

FREE SPEECH CENTRAL

The Department of Correction's
CASH COW

(REECE THE FLEECE) still sucking on the teat(s) of the Mass. D.O.C. You may remember Fleece as the DOCs biggest money grubbing electrician at MCI-Norfolk who has been suspended for, ahum, making mistakes on his timecard with overtime, having his keys taken by the administration for stealing, and threats to be relocated to another facility because, well basically because he is a licensed asshole.

And speaking of assholes, the Food Services Director of MCI-Norfolk, the Green Chicken Head is still trying to stretch the .03¢ of every dollar spent on food. He continues to make substitutions to the inmate menu (contrary to 103 DOC 760(policy)) by replacing the little fresh fruit the population receives with Snoopy's Frosted Sugar Cookies. See the (41 processed ingredients) nutritional facts below. William Bates has now earned the nick-name "Angel of Death" after an inmate at MCI-Norfolk ate 8 of these cookies and suffered a stroke and died- way to go Bill.
