

"HUMOR"

An inmate steals a keyboard and takes it back to his cell. When his celly ask him what he was doing, the other inmate replied, "I keep hitting escape, but I'm still here."

Calling the doctor, a man spoke frantically into the phone.... "My wife is pregnant and her contractions are only two minutes apart". The doctor asked, "Is this her first child?" The man says, "no, this is her husband".

"An apple a day keeps the doctor away", they say. Why stop there?
"An onion a day keeps everyone away."

A little girl asks her mother where we all come from. The mom says, "God Created Adam and Eve and they had babies and here we are". The little girl says okay and goes into the other room and asks her dad the same question. The dad replies, "well Hun, it's evolution. We all started out as monkeys and evolved into men and women." The little girl runs back into the kitchen and says, "Mom!, Dad says we come from monkeys". The mom replies, "oh honey, that's just your dads side of family".

Angels

Could that stranger who helped you out be an angel? Might that colleague who worked late with you to get a project done on time have been inspired by a heavenly force?

Always
Together

Friends

Did that person who assisted you through the rough times have invisible wings? Creator is so amazing that he chooses to distribute his angels throughout heaven and earth. His angels are often disguised as everyday people we know, or strangers we never met. Angels might even come in animal form. There are no limitations to what is possible with Creator. What a great reason to treat everyone with respect & love. Because maybe, just maybe, we're all angels to one another.

Dear Relatives,

During times of illness, we often experience fear like none ever known. We may fear losing our lives, we may be afraid of losing someone we love. Fear haunts us and makes us feel helpless. But Creator is always there. He is like

a light in the darkness or a beacon guiding us to a place of comfort and acceptance. Healings take place all the time, and a miracle is always waiting for us if we look for that beacon and follow it with all our hearts. We may be first asked to go through some very tough times, but if we follow the light, we will make it to the other side in wholeness and in joy.

PS...

! Sooner or later, most of us will go through a natural caused illness. I am going through a few myself. Don't be afraid. Just stay in prayer. Focus on creator. I love you all.
