

should legislative have power to appoint
local judges Amendment 3

Most definitely because majority of these lawyers, DA and judges are relatives, either they close friends that plays golf together, went to school together or just best friends. a lot of people cases are discuss before ~~they~~ the defendant get into the courtroom. They have already discuss what they going to give you. I am living reciprocal of this. I was told before I ever stepped into the courtroom. what sentence I was going to be giving. My case was discuss with a lot of people before I went to trial. I reported my judge A. Wallace ^{Cato} to the JQC because I request him from touching my motion's because he was ~~my~~ my trial judge. He was not about to correct his own mistakes. He touch my motion anyway. JQC didn't do nothing. I feel like they cover for certain judges anyway. Because they sentence the most people to prison. my judge A. Wallace Cato is no known for sentencing the most people to prison. He has been on the bench for decades. He will tell you he is untouchable. Because the people keep voting him back in. Anybody who is voting for Sheriff Wendell Cofer, Judge A. Wallace Cato, DA Joseph Mulholland, Judge Chas, Judge Biley Cranham, Bainbridge, GA needs to get these people out of those position because your due ~~process~~ process ~~to~~ will be denied. They don't care if you are innocent. you will be sent to prison. They need to be voted out. Bainbridge has never had another race in those seats. It's always been white. Majority of the upper officer has always been whites. we have never had a Black or ~~any~~ any other race. Donaldsonville, GA Seminole County is the same we need some diverse in these little town. It very hard for the poor people in these counties. To get back in the courts is hard for ~~the~~ poor blacks. Things need to be changed.
