I'm glad you were able to read my work. However, if you're going to analyze it do so correctly. If you will read it says in my mind therefoore, this person is in my mind. No it's not about Maci. If you know me you would research where this tree is or what kind it is. It's from Japan and it's the cherry blossoms I love so much. I wish it would be about someone real. Because then I wouldn't feel like everyone has lied to me. But maybe one day in a house by the sea it will be different. I hope you will continue to read my work and I may just send some more from time to time. Thanks for your analysis . Look forward to hearing from you again  
Always\_\_Cassia..Sara
