"Blog Post"

What's happening, at Eastham Unit, Loxley, TX
 Well for starters they told us on the 2nd of (Dec.)
 to boil our "drinking water" Can you comprehend that??!
 That inhumane, and most of us don't have a hot pot so
 how are we supposed to boil our water anyway and they
 know; the (Hot pots) that's sold to us, don't boil to be
 gin with, now we've got chicken houses, and feedmill over on
 (Town lawn) where we breed pigs, plus a grease burner
 where we raise the pigs fatten them up in shipping
 off, and we've got live stock all types of cows, Angus
 Brahman you name it then here on old Eastham plus
 our own waste management system, so why come we
 don't have access to clean drinking water we've got our
 own water tower so why come we don't have drinkable
 H₂O ?!

Yours truly
