

THE NORFOLK CHRONICLES

- IF LEFT UNCHECKED THE "FAILURE MACHINE" WILL SPIN OUT OF CONTROL

How much more can the citizenry take? Each year we have summers of murder in the Mattapan Corridor, months of homicide on the streets of Springfield, days of death on Main South, Worcester, and other periods of extreme violence in our communities. Much of this violence is the result of unprepared men leaving the custody of the Department of "Corruption" unprepared, hopeless, and angry and returning to the communities as negative leaders for the young men searching for a way to belong. The failed "jobs program" that is the D.O.C. is directly responsible for the violence in our streets, but the average citizen does not make the connection. We need you, the readers of this blog, to get involved. We need you to work with us, the informed prisoners of the state, in educating our members of the General Court, our Representatives and Senators, about what actually works to reform prisoners and also about what are the abysmal and epic failures of the current ineffective and laughable system. MCI Norfolk, once the "Rehabilitation Model" for the Nation, has been reduced to a "crime producing institution" and there is absolutely zero accountability for their planned destructions of anything even close to rehabilitation. We need your outrage. We need your immediate involvement. Please contact me here at the blog, or directly by snail mail;

Please tune in on the web at: www.106.1FM.org, or call in to listen at: (641) 522-5309. The Show, and the push for commonsense public safety reforms, needs your support.
