- WHAT THE "NEW YEAR" HOLDS AT NORFOLK WORLD/WALLY WORLD

Well 2016 is behind us and we welcome in 2017 here at the land of the Hopeless; otherwise known as WallyWorld. Here are some of the things the prisoners can look forward to this year;

Our current Director of Mistreatment will be retiring and the powers-that-be plan to allow our own corruptional Medusa, Scary Sherry, to take over the position. She had held this "position" (think 'bent over') previously and pretty much destroyed the programming at the prison. So many proposals were "lost" and events "cancelled" that they had to find someone who would at least make it look as if rehabilitation was some part of the Norfolk Process. It will once again be utter chaos with The Queen Of Mean at the helm and her hair snakes are salivating at the opportunity to hurt prisoners.

Another long-awaited retirement will be that of our illustrious Food Services Director, The Green Chickenhead. After years of feeding us rat feces covered pancakes, tossing chicken heads into his patented "Chicken Stew", and threatening to have me "shipped out of the camp" when they complain about his dick-beaters picking meat off of the trays being sent to the units for service, The Head will be sent out to pasture on the white sands of Key West. It has been rumoured that he has taken a position (again think 'bent over') with a Sushi Bar in Key West called, "Swallow The eel". Many who work the Main Line Kitchen wonder if The Head's legacy of semi-botulism, quasi-tomane poisoning, and attempts to recreate the Black Plague could ever be replicated by any replacement, but as they say in Corruptions, "You are sometimes better off with the devil you know. You will be missed Bill (NOT!)."

The Kavorkians over in the prison sick-bay will undoubtedly come up with new ways to deny treatment, mask infections as "spider bites", and play grab-ass with the pigs over there who wear the tarnished DOC badge. You can rest assured that the sick-bay guards will be telling the wet-behind-the-ears, entry level nurses, that these "animals" don't deserve medical care. That is what the 70 and 80 year olds here have to look forward to this New Year. I can assure you of this; the abuse will not go unreported. The Insecure Perimeter Team will make up accusations, I expect that, but the lawyers are waiting and forewarned. We will fight in 2017! I will be free!!!

I FEAR NOT THE MAN WHO HAS PRACTICED 10,000 KICKS ONCE BUT THE MAN WHO HAS PRACTICED ONE KICK 10,000 TIMES."
