I'm inadvertently fallin into the depths of her,"  
to the point where I dont know which way is up!

It's so surreal, how I long to savor her until  
she begs me to "stop," savoring it all while my  
heart paces like the minute hand on a clock....

I center myself for direct contact, like a  
missile being deployed, Her wonderland telling  
me, give it to me "boy" but Ima man, more  
wonderous than a 100 grand let's take a stand  
an demand greatness !! Just be patient.....

Earth shattering, mouth chattering, so we embrace  
it, (climax) in a harmonious chant; while her eye's express  
what her (soul) is trying to say, an its, the same  
thing I'm thinking, Cause we're in sync, dont blink  
this is your wonderland !!

Take my hand an lead, as I become your student  
eager to learn, you're worth it, and I'm lost in wonderland  
on purpose gasping for a breath going at it, like its  
not a second left, wow, (Her wonderland)
