### - OUR PROBLEM IS NOW YOUR PROBLEM / D.O.C. "WONDER" SOLUTIONS

You cannot believe the depth of the drug problem here at WallyWorld/NorfolkWorld; it is beyond the scope of anything I have ever seen in my 18 years in prison. In typical fashion the consummate "liars" that are the Department of Correction have come up with all kinds of "wonder" solutions to address the issue; all are based on the typical DOC lies and misinformation tactics. First, instead of offering real and viable treatment to these addicts with the disease of addiction these NorfolkWorld Brain Trust agents have decided to use their abusive classification system to just ship them off to another prison; to make them someone else's problem. On the surface it may appear that they have less "dirty urines" or less "drug related" disciplinary reports, but those addicts are just at some other gulag, doing what they did here, and getting prepared for their next even more serious crime upon release. As always the DOC says, "Fuck Public Safety" and is just letting addicts flourish while future murderers are created through their tactics. Rome burns while our tarnished badge clad Neros fiddle. Next, they try to blame visitors for bringing in the drugs through the visiting room. Now I'll admit that from time to time this does happen, but it is rare. Most honest folk are just out there attempting to save their family unit while someone is locked away in this shithole. The vast majority of the drugs, the lion's share so to speak, ALWAYS come in through a few corrupt guards; and the records here at Norfolk prove that. Look to the arrest of CO Hartung and the pinches of CO McGinn and CO Zwicker as just a few quick examples. It frustrates the shit of the pretend detectives here, a real crew of Cluseaus, that they cannot pin down just which tarnished badge sporters are bringing in the thousands of suboxone strips and sheets of K-2, so they just blame it on the cons and their families; typical DOC propaganda. The pigs bring in the drugs - bottom line - and the other pigs are too dumb to stop it. Maybe they should just stick to arresting men for doing radio interviews or using their work computers to make a calendar? How do they sleep at night? There will never be any real wonder solutions with these evil folks at the helm. The pigs are the problem. Never forget that.

### - SOME GREAT WORK BEING DONE AT NORFOLK WORLD / READ THE REPORTS

What follows are some great reports from the work that is going on here at NorfolkWorld. First are two Lifers' Group reports I put together which detail the issues of recidivism and drug use. Please afford me your comments on the data? Next is a great report about the "TOXIC" water here at the prison. Finally we have a report about the counter-intuitive practices of this insane gulag and its insane employees. Please read the reports and let me know what you think???

More To Come...
