2/26/17: 11:00am: Watching: M*A*S*H*

Hi, if anyone remembers this tv show, it is funny. I grew up watching it with my mom. I want to tell you about Marley's Mission. And after you hear the story, if you want to make a donation, please check them out on line.

July 2009, a 5 year old baby girl named Kodee was brutally raped and beaten half to death by a neighbor in her bedroom. He was arrested & given a life sentence in prison for this brutal crime against a baby.

I met the mom, April 2 days ago. She came to speak to us who take the impact of crime group. Her story was heartbreaking, not a dry eye in the room. To hear how Kodee was hurt so badly, how her family was destroyed over this, it was heartbreaking. But we are learning of the ripple effect. In the beginning they received about \$5,000 in donations and the only thing that would bring Kodee out of her shell was a horse. So they bought her a horse named strawberry. Long story short, Kodee fell in love with this horse, she is now a 12 year old kid who still remembers her attack, but she is okay with her mom coming to prisons and telling their story. The mom started a non profit org that helps kids who have been abused called Marley's Mission. Please feel free to look it up. Was an amazing story, how something so good came from something so horrible & tragic. If anyone wants to help this place that helps kids, please do so. I have asked the lifers org. here to send them a \$500 donation. I hope it gets approved by the prison administration.

Two 13 yr old girls were murdered in Indiana I believe. Abigail Williams and Liberty "Libby" German, 2 friends hiking on a trail at 1 pm, last heard from at 2 pm. Our CNN channel has been out for 3 days but I hope they have caught the man who robbed these 2 babies of their life. There is never a reason to take a child's life. These stories really bother me.

My last one for today is, In California, taxpayers will pay for the 1st prisoner to receive sex reassignment surgery. Shiloh Quine, a 57 years old in for life for murder. Tax payers will pay for it. He will then be sent to a woman's prison. I don't understand how our food is so bad, they are always cutting corners and taking away from us saying it's to save taxpayer money but then they use over \$250,000 to pay for a sex change surgery? Makes no sense to me.

Well thats all for today. I just wanted to tell you about Marley's Mission and hope people out there wanna help them. Take care, was 70 degrees 2 days ago, not it's 30. So keep enjoying winter. God Bless, Ciao.
