Dear J.C.,

Hi, how are you? I hope good. I wrote a blog post a week or so ago but I had no Reply ID since I was responding to your letter. Please look around and find it so you can read it. You sent the letter and state reps info to the wrong address, I haven't been at that prison in over 2 years. I will include my correct address in this so please let me know if my profile page has the correct address or not. Thank you. Also, check out my facebook page, I want you to see me with Rafter, check it out and tell me what you think. He is being trained right now to work with Veteran's who have lost their arms or legs.

I also did get your postcard. Thank you. How was your trip? You must be in good shape to do a 7 mile hike. Was this just a trip for you and your husband or did more people go? I've never been to Ca.

You have some beautiful pups, er, dogs. I go to visit the dogs every morning on my way to work. They got 4 new ones in, 3 black labs and one white/tan lab. Beautiful little pups. They are all so energetic and curious. My day stinks if I don't get to play with the pups for 5 minutes before work.

I am currently working on a project for the LIFERS Organization. We are making a book, this book will be all about the men in this prison who are serving a life sentence, it will have who they are and all that they have done to become better people. All of their achievements and accomplishments in it. We plan to make this book, and send it to every politician in Pennsylvania, all 253 of them.

I am trying to make a difference, we are starting a mentoring program and we hope that people on the outside will help. I want to try to start a facebook page and a gofundme page for us to help make some of these dreams a reality. Can't get a book published without money. Any thoughts or suggestions on that? I am not experienced with the internet, I have never even been on it, so if you have any, please write them down & mail them to me. I know that our crimes are bad but I am trying to show that we are not all those kids anymore. I'm a 40 year old man with an adult child now. I'm not that 21 year old kid anymore. So if you have any ideas or suggestions on how I can get this started, I'm all ears. I am also writing alot of letters to any organization that I can find that is willing to help fight for a chance at parole for lifers in my state.

For now I will let you go. Thank you for remaining in touch & for your help. Take care, go play with your pups & have a great day. Thank you again J.C. God Bless, Ciao.
