

COMING TO A NEIGHBORHOOD NEAR YOU

"THE VOICE OF THE PRISONER"

* * * * *

What has been missing for far too long from the push for commonsense criminal justice reform has been the voice of the educated and informed prisoner. Policy makers cannot make policy without speaking with us; we know what works and what does not. Advocacy agencies cannot speak for us, they seem to lose our ideas and experiences in their own agendas, we are always able to speak for ourselves.

The Department of Correction (Correction) is nothing but a failed jobs program for state employees. It creates more crime than it prevents. We must tear it down and emply a complete overhaul. You could nver go to Hitler for better treatment of the Jews and you cannot ask the DOC to rehabilitate. Please join us. Please get in touch;
