"What she's been missing"

prophet  
Demond  
with  
I knowed  
Crazy ext. or

The feeling of knowing she's loved  
regardless, when the stress of today  
becomes too much, and she; wants to scream  
Wishing that, it's all a dream, never taking  
anything "for granted", and you comfort her, while  
allowing love to replenish what's missing?!

To wake up in a "orgasmic" dimension, clutching  
the sheets wondering maybe I deserve every bit  
of this, I've been superwoman, now's he's sharing  
his superman power's as he flips me over an  
salute's while engaging his most trusted  
soldier wishing that this moment never end  
as we ascend into heaven's now were skipping  
on planets throwing stars while emotions change  
like the weather because we don't wanna  
never end, I'm just saying is this what she's  
been missing?!
