- INVESTIGATION INTO "PERSONAL INTERNET" USE AT NORFOLK

Free Speech Central has learned that the Office of the Attorney General will be conducting an investigation into the personal use of Department of Corruption computers at MCI Norfolk. It appears that employees with "Level III" access to the Internet at the facility have been reading prisoner blogs while on the state's dime. These DOC "Rocket Scientists" have neglected to take into consideration that their internet use can be tracked and questions may arise as to why some evil electrician might be surfing "Between The Bars" or "Gender Indentity Disorder" on their work computer? We have also learned that the investigation was initiated when a disgruntled prisoner worker, think "maintenance", wrote the AG's office about what he witnessed at work. Of course we will keep you updated on the situation. Oh yea, suck it up boys, The Free Spech Warrior is back at work - shortening his sentence - and there ain't nothing you can do about it!

- THERE WILL BE NO INTERRUPTIONS OF "NAP TIME" FOR "GOT-A-GUN"

As you know the Norfolk Athletic Committee had been trying to recreation time in the gymnasium for "Over 50" convicts. The gym closes each day from 3:30 pm. to 6:15 pm for "Red Shirt Nap Time". The Committee proposed that on Wednesday & Fridays from 3:30 to 4:30 the Over 50 Crowd could work out, but the Recreation Nazi and Red Shirted Tarnished Badge Wearer, Janey's Got A Gun, said "Over my dead body!" Now they pay this dolt \$88,980.97 a year to sit on his money maker and take notes at prisoner meetings. Real "Public Safety Champion" this one. He is so full of hatred and self-loathing that he wants the gym closed as he can't support "coddling aging prisoners." Hunk of dung, anyone? In a compromise the Weekend Red Shirted Tarnished Badge Wearers will schedule Over 50 Recreation for 3:30 pm to 4:30 pm on Saturdays, but then will take the day off so that the gym is closed. Compassionate rulers and true athletic supporters.

- NEW DIRECTOR OF MISTREATMENT SENT ON "MEDUSA'A TOUR OF HELL"

in another stroke of Corruptional Genuis the Brain Trust at NorfolkWorld had Scary Sherry Medusa, the most incompetant employee to ever wear the tarnished badge, give the new hire Director of Mistreatment a "tour" of the facility. We can only imagine how much bile Medusa spewed as she led the gal around; "They are all liars!", "They get nothing!", and "Make up false charges against them!", surely roared from her lips on the "tour". God save us!
