

3/9/2017: 4:00pm: Watching tv

Dear Rita,

Hi, how are you? I got your last comments, how are you doing? I hope good. My brother was upset that he couldn't contact you to tell you he got & sent me the \$20 you sent. Something happened to his phone & he lost all of his contacts. Lost everyones e-mail, phone numbers, everything. Please send him an e-mail & give him your e-mail again. His is: justinpezeca@yahoo.com

He wrote me asking me if I had it & I told him I didn't but I told him I would hear from you eventually & I would ask you to contact him again. I called my mom today & Rita, her doctor stinks. He doesn't care. He says he is overworked & has too many patients. She gets crappy care. She sees her cancer doctor next week, if he doesn't change her appointment again, so I am praying he helps her. No, even with chemo the doctor says there is no possibility for a cure. She has a cancer called Acute Myeloid Leukemia (AML). It is a blood cancer. The older you are, from what I read the worse chance you have. All I hope & pray for is a miracle from God Rita. I'd give the rest of my years to her if God allows it. I would like my mom to see your brother. My mom also has many lung problems. She lives on an oxygen tank & cannot breathe without it. Alot of prisoners in here get staph infections and the medical department says they are spider bites until guys get big sores on their bodies. Then they treat them for serious staph infections. There is a bad one called MRSA, dozens of Prisoners get that in every jail each year. My moms name is Beverly Brown. She is 60 now. This is her 2nd cancer of the same kind. We have a very bad mailroom here too Rita. I was in a prison called Huntingdon & the mailroom staff were not good people, they took 2 huge sacks of mail, took it with them when they went on their lunch breaks to a fast food place called Mcdonalds, they threw the 2 sacks of mail that was going to the prisoners in the trash. It was discovered by a person who worked at the McDonalds and they called the post office to report it. We got that mail months later.

A friend sent me a picture of my daughter. It was on the computer. I don't hear from her anymore. What do you mean that george couldn't look for his daughter Vanessa, you wrote that he lost his child. Is she alive? What is her name? If she is alive and if you know her date of birth, send it to me. I have someone who can find most people. But I need a full name and date of birth. Thats all. Maybe where she last lived. But I am not sure if she is alive or not because of how you worded it. You can email that to my brother & tell him to give it to me.

How I love playing with the puppies. I get to play with them every day. You don't have to be on facebook to see my picture. Just go on the site, type in my name and you will see. My mom tells me funny stories of her 4 cats and I tell her about the 6 puppies in here that I get to see every day. I watch alot of outdoor shows on tv & any shows with animals in it. There are innocent people in prison. It's been proven. There were

2 famous italian immigrants who were murdered by the state who were both innocent, they have a day named after them, I forget where, maybe Boston Massachusetts, Sacco & Vanzetti were their last names. Crooked cops I believe set them up and they were executed. Later found to be innocent. This was before I was born.

Sciatica is very painful. I lived with that when I hurt my back a few years ago. Very painful & hurts to move certain ways. Still bothers me from time to time.

I sent my brother a message and told him that you sent me a message. He felt badly that he couldn't contact you. I think his phone was destroyed but he has a new one and even a new phone number. This is different because he had that number for over 5 years. But since he changed it, I cannot add his new number to my list until next month so I won't be able to call and talk to baby lucy, who has informed me that she is no longer a baby, she said, Uncle Robby did you know I'm 5, and I'm a big girl now (: She is my brothers only child, so adorable. His e-mail is justinpezzeca@yahoo.com. Please send him your e-mail again Rita. Well I guess I will let you go. I am working on my story. A new friend is creating a website for me to put my story on and I want to do a book on lifers who deserve a 2nd chance. So this is our way of trying to help. I am doing everything I can from in here to be a better man, show people that I am fighting for a 2nd chance. I hope you have a wonderful trip to see George, Make the most of it. Do not have any regrets. Be happy and have fun. Take very good care of yourself and I am praying for a successful trip. I want to hear all about it when you are back home. Until then, I wish you luck my friend. God Bless, Ciao.
