- JUVENILE JUSTICE "SACKED" BY THE BAG LADY OF CORRECTIONS

The hard working advocates who have battled to secure justice are horrified at the information that the OverClassification Hearings of juvenile homicide offenders are being handled by none other than the Bag Lady of Corrections/Corruptions, Scary Sherry Medusa. Can you imagine your life being in the hands of the most incompetent employee in the Department of Corruption? It is the DOC way. Put the worst person in the most inappropriate position with the end game of no one ever getting out of prison and those who do made so that they will undoubtedly come back. These 16 and 17 year olds, who tragically committed homicides as children, are now 35 and 45 years old, and even older, with decades in prison. The Courts have decided that they deserve freedom, but the DOC has decided to place them before a "Hanging Judge", Scary Sherry the Executioner will write bogus reviews, will recommend programs they don't need, and just basically screw the pooch as far as freedom for these kids who no longer pose any threat to society. The Bag Lady has sacked their hope and crushed their freedom. She has crushed it just like her black-forrest heart was crushed so many years ago. Our Medusa will sit back. lose some "proposals", feed her Medusa Snakes, and laugh all the way to the bank. Karma is coming for her, no doubt.

- MOLES IN ELECTRICAL DEPARTMENT SOUGHT BY BAD ELECTRICIAN

Apparantly an "informal investigation" is being conducted "off the books", by the Jaques Closseau of Electrical Maintenance, Reese the Fleece. Good ole Bobby, known as the "Bad Electrician" is making desperate inquiries as to who may be reporting his every move and conversation to social media sources. We here at Free Speech Central can neither confirm or deny that such sources exist, but we will make a prediction that The Fleece will be interviewed by Attorney General Maura Healy's Office due to his improper use of State computers. She may also want to talk to him about his youthful underwear model photos which are circulating on the website creepy-peepy.com as we come to press. It appears that the walls have ears down in maintenance Bobby, and it is too bad that they get paid only \$2.00 per day - they deserve much more, and we will stay tuned to the same bat channel for more updates!

- NEW YORK STOCK EXCHANGE TO ADD "SUBOXONE.NORFOLK" TO TICKER

The new pharmaceutical firm, Suboxone.Norflk, will now be publically traded. The NYSE, NASDAQ, and the Tokyo Exchange will all add this company to the "ticker" after its massive profits here at NorfolkWorld in the early stages of 2017. Company President, I. Lugg Copper, was quoted, "The shit is selling like life preservers on the Titanic at NorfolkWorld and the guards have just given up." Sell the ranch, cash in your gold, and buy "SUBOXONE"!
