

## Let's just keep it real.

I have a question for you? What tunes are you dancing to. For me I love to dance but some tunes are not for me. So with that being said. I don't follow behind ~~o~~ just anybody leadership. The truth be told not everybody is equipped to be a leader. Some are to be followers. My question to you who and what is you following? Previously I was in some situation where I kept having bunkmate problems where I was living. This old bunkmate wanted to control me, mistreated me, talked about me and cause others to turn against me. She was very manipulative. So anything she said was very persuasive to the ears who was weak mind. So she went to the staff. to lied to them to get moved. After she moved out you would thought by this is settle down out the room with her. Absolutely not every bunkmate I get she went to them in fed their minds with negativity. Guess what I continue to have problems. So I said let me tell some in authority. "These people are messing with me explain each situation. Guess what I get moved out of the building by the staff as if I am the problem. When they was actually the problem. I will not change my moral or value for no one. Dealing with these weak minded ~~and~~ individual could have cause me lowered my moral or value by just stooping to their levels even the staff because they was wrong for moving me out of that building. I could have said or done something because I was the one wronged. I have remained quiet why stoop to they level. I am a leader <sup>equipped</sup> not a follower. When you are a equipped leader. you become a threat to certain type of people what type ~~o~~ of people we are talking about jealous and covetous people. They want ~~you~~ what you have on the inside. They see your strength in areas where they lack in that area. People who comes after you to destroy your character or in deed. Always try to bring weak mind people that think just like them. I don't like him or her either. So they all ~~congr~~ Congregate ~~to~~ together. That's why it is easy for people to go up in kill innocent immigrants. Because why our president don't even want them over here because they ain't nothing but terrorist. If he the president, he feel that way I feel him on that. I hate them to weak mind person. Michael Flynn gets fired but Jeff session gets to stay in he lied under oath. That is perjury. If Michael Flynn out the door. Guess

Jeff session needs to be gone. So now we play favorite in the White House. Just like my situation in my mother in law they put you out in you didn't do anything. But these three individual was doing a lot. She wants to know why they have not been moved out the building. So why Donald Trump is firing the US Attorney of New York that was on Obama staff who didn't do nothing. The people of United States need to make sure Jeff session is out. He did do something lied. Every since Donald Trump has been in the Chair it's been drama, scheme and lies. ~~and~~ a lot of things Donald Trump and staff has done. The average citizen, Mayor or Senator would have been in prison or jail. I heard one political figure used the phrase change is not easy. I agree. But where is the solid foundation for all American people including immigrants. Can I explain what's going on with the government. When I was the leader of the praise team. and other position in leadership. Everybody wanted to put their hands in the pot. Some ideal I knew would bring disaster to others and the team. So I ruled out their ideals. They got mad went to my boss. Constantly I was in the principle ~~office~~ office. Being a leader doesn't mean you step on people, cause harm to them or mistreat them. When I made decision for my team and the people if it didn't help everyone. I ruled it out quick. I always thought the whole process through out. If I do this what will be the outcome. who will it affect? What's benefit in it for everyone. My heart was pure and I cared about everyone. I never jumped to conclusion about anyone or assumed anything. Before I said anything about anyone or anything. I had all my facts straight. I never reply to all comments because some comments are not worth answering. Because you come down on that person level of stupidity. When people criticize me I weighed everything they said - what do I mean by that I did self evaluation - because sometimes we can be blind to our own flaws. If it was me guess what I worked on that area. till I overcame. Or never oppressed people, what I mean by this? American government was talking about stamping Immigrant license. When there was no proof of voter fraud why? Because we want to. That's not right American people. We got to stop harassing and oppressing people and single people

and singling them out. At the end the day there will be a judgment Day. Everybody will have to answer God for how they treat others and how we lived our ~~life~~ lives. I want to say these same words to the United States government, United Nation and Continent. This is something I told my team as leader. Everybody can't be the leader, some one got to be the follower but what is you following, who is you following and where is you going? So many people are hungry to give orders but they is not equip to lead. So with that being said we need you to take the back seat. (set down) Every you every want to have confusion. Have a group people together to do something. The people on my team use to do me like that. Everybody just giving orders. I said hold up this is what we going to do. yes I was open to suggestion but when the suggestion going to cause destruction or chaos my answer is absolutely no. Did I care they go mad absolutely no. Being a leader you have to have some backbone about yourself. One thing about people they can be wishy washy they will like you one day and hate your guts the next day. Being leader you cannot get caught up in ~~emotions~~ being a emotionally rollercoaster. Being a leader you cannot be a coward when you call out on something you doing wrong? The people will respect you more if you say yes I was wrong for such and such. Please forgive me. Even if they don't forgive you. You forgive ~~you~~ yourself keep it moving because at the end of the day you have to answer to God and they will not forgive others. Trump slams Chicago resident say come fix it. First of all, the worst thing you can do in life is step on somebody while they already down. Let me ask you this Chicago do you really want the military and feds come into your community. Think about what you asking for? Never get desperate in a situation where you ask the wrong people for help because Donald Trump help is not the correct help. See how our government is right now. Then it was said the Mayor cannot do nothing about the gun violence. Why does Trump keep single out Chicago? Donald Trump does this all the time but when somebody singles him out such as the media then they bad people. But what Mr. Trump fail to realize Matthew 7:1,2 Jesus tells us to examine our own motives and conduct instead of judging others. That the traits that bother us in others are often the habits we dislike in ourselves. Our untamed bad habits and behavior patterns are the very ones that we most want to change in others. Do you find it easy to magnify other's faults while excusing your own? If you are ready to criticize someone, check to see if you deserve

The same criticism. Judge yourself first, and then lovingly forgive and help your neighbor. Donald Trump considers himself Christian. Check this out, the ones who reach out to Donald Trump is told him how he could help Chicago. How many of you are Christian? you don't have to tell me. I am a man of God. I can feel when my people are involved. Basically in so many words this man has told you all he is better and arrogant with it. When you judge someone, you ~~are~~ invariably consider yourself better and that is arrogant. But he is willing to go out of his way to help these steel workers and build this pipeline North Dakota not caring about this ground is sacred for the Indian. So what it tell you it's all about money. Now we got ISIS we sending our troops to help dismantle ISIS. Wasting taxpayer dollars over again. We took the land. ~~or~~ etc. yada, yada. The scenario is for the Chicago ~~situation~~ and ISIS situation. Both of these situation didn't come into effect real fast. These situation crept in like a snake - moving with extreme slowness. Now what you have is a snake pit - a place of disorder and chaos. These people are treacherous marked by unforeseen hazards; dangerous ~~or~~ deceptive. So now you have the snake pit full of snakes that have given birth to other snakes. Normally when there is snake pit, you have to shoot down in them to kill all these snakes. Which I was always told you want a snake to die quickly you have to cut the head off. But you see that is not always true. We did the gang leader, Al Qaeda leader etc. To try to cut the head off the snakes but the snake had already given birth to many followers. So now it's time to change course. One of the things I have to say to the followers of radical Islam and people who are killing Chicago. Why continue to dance to the wrong music. All music don't sound good. Why let somebody get into your mind to tell you to do wrong. You don't have to be weak minded or afraid of anyone. God ~~created~~ Allah didn't create you to kill anyone. It's to be a leader not a follower for the wrong reason. You don't have to be a part of ISIS or the gang or the street life a lot of you have consciences in you want to get out ~~out~~ but you afraid. Don't be afraid. I remember there was this girl in prison. She had her little gang. All they did was bully people around and take their things. One day the people who following her left her

said they was tired of the chaos living. She was all alone. Then she was weak because she didn't have a crowd to pump her up to do wrong. So I encourage all the followers who is following people in the gangs, Street life or ISIS to leave those leaders all alone. They will stop all the foolishness. That's like argument it takes two argue but if you dont put no wood on the fire it's will never be one. Even though this talking about something else. I am going to use it as a example. Proverbs 26:20 Without wood a fire goes out, without gossip a quarrel dies down. Talking about every little ~~irritation~~ irritation or piece of gossip only keeps the fires of anger going. Refusing to discuss them cuts the fuel line and makes the fires die out. Does someone continually irritate you? Decide not to complain about the person, and see if your irritation dies from lack of fuel. The same way the followers need to do stop following behind the false leaders of Islam or gang leaders or street life. This will seize all these foolish things going on and innocent lives being taken. I promise you if you leave these wrong way of living God and Allah will bless you. Some of them followers of that one girl when they said I am not going to follow behind you any more they blessing begin to follow. Some got to go home. They wasn't suppose to get out prison for a long time. God and Allah has better for you. But you have to stop following behind the wrong people, Cause you are cutting off your blessings. People wake up. I believe in going to the table in all that. Laying ideals on the table to get the leader to think about it. How can you expect someone to care about education. When they took from their own university. This would be the last person I would ask to help me concerning education. I hope they may take your money. Trump is not attending Correspondent dinner only a coward would run from the media. If you don't want people to call you out, Stop doing what you are doing. Stop lying about things that never where so. What Donald Trump and staff have to realize that nobody in America is ~~to~~ disinclude to abide by the US Constitution Bill of rights and amendments just like the citizen of the United State have to the political figures support as well. We don't create Rules in America to harm people or just do what we want to in America. We rules that we all have to abide by. Nobody above the laws of the land. Perez vows to president to serve one term. I feel he should have been impeached. ~~Quote~~ my opinion.
