

For those of you that chose to lead by creation, including those of you who are straight allies, I know the difficulty to dress in all white in prison, especially on deathrow.

(TOBIAS DAYS)

I ask that you join the Family by enjoying one day out of the year when we all dress in All White, shoes, socks, t-shirts, hats, shorts or any garment that is white, in the event it is not possible, I urge that you allow for your natural skin to be viewed, underwear and socks are not required. Come alone, come as partners, come in groups.

This White Party day will be for us a day to display unity, love and respect toward each other, and a moment to share food snacks and songs, poetic readings and quality time with each other and all others. This is also a day to choose someone to forgive in your heart, even if you choose silence, your presence

and to be visible is required, as we honor our LGBTQ ancestors.

Acts of violence, and argument is forbidden, and the youngest of you must be lead organizers of activities of the day, the eldest of you must be allowed to issue the closing address of encouragement.

And we all said, love deeper!

(Tobias days cont.)

These celebrations of each other
can be done alone with knowing
that somewhere others count
you as Family. Ad-Seq and High
Security Units require more Creativity.
Seasonal celebrations allows for
our youth to be creative,
especially in the summer when
table games, hobby craft works,
and arts can be displayed and
shared as this is not a day
to buy sell or trade anything,
the displays of works and
talents is the gift, especially
for those of you that prepare
the open spread, also from
donated items and gifts from
the community, its all in with food
items and snacks and drinks.
It is forbidden that anyone person
walks away from this day, unfed,
or uncared for by our finest
groomers and cosmetic specialist
filling the air with scents and
aromatic fragrances and combinations
to teach and share, care to hygiene,
and health.
My personal favorite is winter season,
and rainy cold days where music
food and the warm company of
others provide intimate opportunities
to hear and experience each other
through sensual dialogue, spoken word,
singing slow jams and soothing Raps, or
reading of poetic asides, and although
we promote greetings and farewells with
hugs and a kiss, be aware of prison
policy where you are.

(Tobias days cont.)

I encourage all of you to invite someone to the function, and deny nobody, unless an intent to disrupt the peace is obvious, and even in that case, a gift snack must be prepared and offered to said adversary under direct approval of the Eldest and Youngest amongst you, who must agree, in the event the Elder and Youngest don't agree, no gift to the adversary will be offered, but can be invited to the next celebration.

All invites must be in careful awareness of all other prison subcultural group constitutions for their members and associates who may have adverse constitutions that are antithetical to LGBTQ community values and dispositions, for we understand that peace is best served with respect. In the event that your invite is subject to his or her own subcultural groups constitutions about discipline, it is required that we as a group continue to provide a solid open door for anyone to participate in our most peaceful celebration, and it will always be The Eldest and the Youngest agreement to maintain that open door as denial must never be depicted from the side of love, care and moments of peace through the example of forgiveness in real time.
