

THE NORFOLK CHRONICLES

by Timothy J. Muise

* * * * *

- NEW "SUBOXONE TREATMENT UNIT"(S.U.N.) SHINES OVER NORFOLK

Just like in a prize fight when some palooka's manager tosses in the sweat soaked towel to end a losing fight, the corruptional pugilists here at WallyWorld have tossed in the recidivism soaked brown towel when it comes to the unbelievable suboxone addiction problem they have here. Instead of offering progressive, reality based activities and programming to interest the "idle inmate population", as the prison likes to call the junkies, they have just run a tarnished DOC white flag up the flagpole and offered an unconditional surrender in the form of their new "Suboxone Treatment Unit" or "SUN" for short. The SUN will surely not shine here at WallyWorld, but what will shine are the gun barrels of the murder weapons that these angry and addicted men will use when they hit the streets of YOUR cities and towns. What will also shine will be the pile of gleaming shekels the taxpayer doles out to these dregs while they produce a 50% recidivism rate and cry understaffing when they have the highest staff to prisoner ratio in the nation. You literally have dozens of men FULLY ADDICTED to smuggled in suboxone, and believe you me it ain't smuggled in by the visitors; think corrupt cop acting as lucrative mule. The Insecure Perimeter Team, the keystone kops of korrptions, bag men for "dirty urines" and "too many stamps", while Joe The Prison Guard meets John the convicts wife at the Walmart parking lot to pick up the 300 suboxone strips and his \$500.00 cash payment. It ain't rocket science but when you have Zena The Warrior Princess and Waffler more concerned with "Pecker Checking" and Panda Bear calendars what you reap is more summers of murder in the Mattapan Corridor and beyond. These dregs spend their day strip searching addcited convicts while drugs pour in through the front gate. Pure madness. Well at least they will have the SUN to tan their lily white backsides now. The old Department of Corruptions mantra, lock em' up and sort it out later, will result in the deaths of more innocents in your communities. I cannot wait to watch the SUN set while Zena rides off into the gender tolerant fields of homicide.

- NO PROMOTION FOR SCARY SHERRY MEDUSA / CLASSIFICATION OFFICE CHEERS

Well everyone thought that the Ole Bag Lady of Corrections, the most incompetent employee in DOC history, Scary Sherry Medusa, was going to get a real promotion to the "White House" here at MCI NorfolkWorld. It had been reported to Free Speech Central that The Bag Lady was set for a position (think asleep at her desk) in Central Classification where she could really destroy lives, but when the folks in The White House got word of that they raised such a stink that the Hog Farm slop buckets seemed like Chanel No. 5 in comparison. They got the promotion nixed and we here at WallyWorld will continue to pay the price for her ineptitude. God save us.

More To Come...
