Hailsa Sigurd.

Do I sense an open scabbard? I've received your two messages: 1- Theta-Man - what's the purpose - enlighten me, and 2- all the money.

First, I'd like to decipher your pseudonym Sigurd for our audience. You may have noticed in previous blogs that I sometimes sign my Scientology-related blogs with the acronym S I G, which represents Scientology's Inside Guy. But it also has underlying significance with the name Sig, which in the old Norse language means Victory. And victory of course is defined as: 1- the overcoming of an enemy or antagonist 2- achievement of mastery - or success in a struggle or endeavor against odds or difficulties.

In an earlier blog with all the Serpents defining WAR, you'll see the actual enemy of homo sapiens is Stupidity. This is the 'Purpose' which you'd asked to be enlightened about.

Now Sigurd actually means Victory-Warded, right? In the old Norse language, Urd represents Urds-well, where the three Norns weave the web of man's fate. You see, our Past (de-) merits produce our Present condition, as does our (un-) responsible conduct in the present, develops our Future condition. How many times have I written that we all get what we deserve? 'Tis true! Individually and collectively, we get out of life what we put into life.

You of course must know the Dragon's name, which made Sigurd the hero. Fafnir means Embracer. Think about it; it's what you embrace that embraces you, you see? I wonder if you're really that free of attachments? Even if you fixate upon the only one "Truth" obfuscating every other point of view, Sigurd fails to achieve the final Victory, you see? In the case of Sigurd's dear Valkyrie, Sigdrifa, whose name means Inciter to Victory, what else could that signify, except Knowledge? The range of what we think and do is limited by what we fail to notice - and because we fail to notice that we fail to notice, there is little we can do to change until we notice how failing to notice shapes our thoughts and deeds.

What is Knowledge? Cognizance. The range of one's information or understanding - the body of truth, information and principles acquired.

Slaying that Dragon Fafnir - the Embracer, simply requires us to Let Go and view anything exactly as it is without any distortion or lies.

Okay Sigurd; "what in hell is this terminology, a secret code of sorts", you ask? Let's see, you didn't actually allude to any particular technical term, so let me first point out the obvious: I write in English. I had defined the word "maybe" in its technical sense, and I had revealed what a mountain may symbolize, so I wonder - is it SPO-T that's a mystery? That's an acronym for Scientology Prison Outreach - Terminal. Terminal in this sense is the Scientology contact point in a communication line.

But you're right of course; In today's mediocre M<sup>c</sup>World of fast serve email abbreviations (LOL) and emoji (☺) stupifying the masses, just who are my blogs appealing to? That's a good question Sigurd.

The cause of human progress is my cause, the enfranchisement of human thought my supreme wish, the freedom of human conscious my mission. It is a very dark world out there where ignorance enslaves eternal beings living with eyes closed - misunderstanding all they see. I'm appealing to them! Have you ever seen the guy with no arms play the guitar with his feet? I'm that guy - locked inside a concrete tomb for twenty years now, who yet achieves victory, overcoming the suppressive forces which breed so many trouble makers. I AM SIG, shining an intelligence for others to admire or resent - but in either event they see the Light! Remember; There is little we can do to change until we notice how failing to notice shapes our thoughts and deeds. And also remember; In the war of homosapiens, the enemy is Stupidity! I'm merely a Watchman blowing my trumpet between the bars. Does this answer your question? Are you enlightened yet?

"What's being done with all the money", is an odd question Sigurd; but okay. What is the purpose of "all the money" circulating anywhere in this world? It's the same purpose as politics and religions - or the politics of religion around the entire world. Let me show you: Factor #1 - Before the beginning was a CAUSE and the entire purpose of the cause was the creation of effect. Factor #2 - In the beginning and forever is the decision and the decision is TO BE. Factor #3 - The first action of beingness is to assume a viewpoint.

You see, politics - religions - money, they're all fabricated economic paradigms which enslave eternal beings, who seemingly are okay with it. It all comes down to the eternal need of 'Purpose', to give us something TO BE, something TO DO and something TO HAVE. A cause to live for, and the entire purpose of the CAUSE is the creation of Effect. This is a world of cause and effect, isn't it?

Here in exile where options are few, and on my blog site between the bars, I simply provide opportunities for others to consider viewpoints. This is SIG declaring war on stupidity - for the love of truth.

But if you really want to follow the money, to see the products of Scientology, have a look at the following sites: [Scientology.org](http://Scientology.org) / [VolunteerMinisters.org](http://VolunteerMinisters.org) / [HumanRights.com](http://HumanRights.com) / [YouthForHumanRights.org](http://YouthForHumanRights.org) / [TWTM.org](http://TWTM.org) / [DrugFreeWorld.org](http://DrugFreeWorld.org) / [echr.org](http://echr.org) / [able.org](http://able.org) / [crimnon.org](http://crimnon.org) / [narconon.org](http://narconon.org) / [appliedscholastics.org](http://appliedscholastics.org).

I hope you'll see that instead of cursing the darkness and being attached to everything wrong with the world, Scientology rather lights a candle and leads the way to do something about it.

Whats the purpose, you ask? Causing Effect! Because something CAN be done about it. Once you understand Victory over Stupidity, this war appeals to worthy warriors who care less about vested interest in the aforementioned economic paradigms, and rather revel like the Einherjar in the glorious agony of revival. Wake 'em up Sigard. Help them slay their attachments, and set our people free! Mail Victory!

Thank you for visiting my site and daring to ask me questions. I appreciate the opportunity to see what I say, you know? For the love of Truth, fare thee well.

Noblesse Oblige.

W.

**“Now how would you get out of a prison if you were in one? I’m afraid you’d just do it by confronting. Everybody to some slight degree is a prisoner. He is a prisoner only to that degree that he is unwilling to confront an area. An actual physical area. Or an actual area of truth. He’s a prisoner.”**

**“Man is having trouble with finance? Obviously, is unwilling to confront money. If a man is having trouble with marriage, there’s some part of marriage that he can’t confront. And where he can’t confront things, then he mocks up and creates some artificial structure which has no basis in truth at all and confronts that instead.”**

**“You want to set men free or if you want men to be free or you yourself want to be freer than you are, all you have to do is find out what you’re willing to confront and what you’re unwilling to confront.”**
