Dear Rita,

Howdy! 24/7 is an expression in the U.S. which stands for "24 hours, 7 days a week." In other words, "all the time."

That sucks that George had a tooth knocked out. I've had so many bones broken while in prison it's crazy. I do not fight or physical with people & I usually end up a punching bag.

Tell George that I said "thanks" for the kind words. I'm so tired of being lonely & depressed.

Thanks as always for all your support. You're a great friend & a wonderful person.

Love,
