"HOURS TO LIVE"

Page 1 OF 2

Mark Asay, who we call Catfish has approximately 60 hours to live. Imagine being told that you are to die on this date at this time, better yet imagine you're loved one is scheduled to die on a certain date at a certain time, and you have to wake up each and every day counting down the final month, week's day's hours and minutes to your loved expires from an "unnatural death." a premeditated homicide! That's what's listed on the death certificate, "HOMICIDE." It is what it is. A premeditated murder, of a living breathing fallible human being. Some will argue it's legal. No - it's not!

Mark Asay is being murdered under a Florida Law, that the United States Supreme Court has unequivocally stated is unconstitutional violating the 6th Amendment.

Our Florida Supreme Court then turned around and found this same law violates the 8th Amendment. yet... due to the fact, that Asay doesn't meet a certain date requirement, his homicide will be justifiable!"

But these justices wouldn't agree with this if it was their loved ones, but then again their loved ones would never make it on to death row, cause they would for one be well represented. secondly they would use their political clout to save their loved one. Asay was not that fortunate.

Think about this, the power of holding life and death in your hand. your signature determining the outcome of a human life. you get to choose the date and time of an individual's death. you have become godlike. To pardon, sparing a life, or kill the man. you're a legalized killer, making a decision and holding a power that only God should have. I can hear them screaming now, Old Testament blah blah blah. well to kill someone under old Testament law you had to have

Hours To Live.

two to three witnesses. and there was a lot of other factors that come into play. secondly and most importantly were governed by the new Testament. "A better Covenant" see Jeremiah 31:31 Hebrews 8:8-12 playing God, giving men the power to kill another man is not something we should be doing. For violence breeds violence. negativity breeds negativity, that's the problem with society. Civility is absent!" That's why we have all this hate and chaos going on in the world right now. Cause every where we turn, we see violence, hate, negativity and that is where this madness is coming from.

People labeled Asay a racist, all I can speak on is his actions, and the brother showed compassion to all races, if you needed something he would give it to you, black, hispanic it didn't matter.

The main point is this, its time to take the power of life and death out of the hands of fallible human beings. For no man should wheel that kind of power. For it may very well give the individual a God Complex and turn them into a legalized serial killer. For remember this is a "HOMICIDE" premeditated murder at the highest level. And if Catfish is successfully murdered in two days, his sister Gloria and other family members will continue to suffer this heinous act that they have been enduring since January 8, 2016 the day Rick Scott's signature was placed on that death warrant, scheduling the homicided of Mark J. Asay.

Call for love + peace, deny vengeful hate. Change is needed. God bless you all.

In Peace Love + Compassion
