

The systematic Prejudice Part 1

We are living in a era, where we have to literally fight for what belongs to us. Nobody has the right to take anything away from anyone. We got to stand up against the Confusion in America, United Nation and Continent. Violence is not the answer but our voices need to be heard every where so that we can bring Resolution to every trouble area in America, United Nation and Continent. No longer will be in bondage to other oppression. Don't let criticism stop you. 1 Samuel 17:28-32 Criticism could stop David. While the rest of the army stood around. You will see people standing around you criticizing while you are standing against what is not right for your country. Some people we call the float along crowd. They accept anything that is dish out to them ~~because~~ because of fear or just don't know who they are as a person (morally). I know you met people like that. They accept abuse or anything somebody do to them. They say to themselves hopefully one day this will be over. Then you have the crowd. This don't have nothing to do with me. I can care less. Last you have the crowd or people pleaser. These people follow behind people just like them or have the same belief system as they do. This goes back to your identity. Who are you? What is your purpose? What is your favorite color? We have to be careful about; what we are following? As well who we are ~~following~~ following? The Blind can't lead the Blind because both will drown or go into a ditch. Why is it so important for the Blind to have someone to ~~help them~~ guide them in the right direction because they can't do it on their own. Can another blind person guide another blind person down the sidewalk absolutely not. They would stumble into things and end up injuring ~~themselves~~ themselves. We have blind leadership over America, United Nation and Continent. All our lives are in jeopardy in many ~~countries~~ countries and cities. What your going to do follow behind the blind or ~~secret~~ seek out guidance from someone who can bring Resolution. Let's reflect back to David. David knew the importance of taking action. With God to fight for David, there was no reason

to wait. Are you depending on a higher power to guide your decisions; do
you out fighting for what is right. People that are sitting on the sideline
keeping your mouth shut. What are you waiting for. All the other people
to do the work so that you can enjoy the benefit after they fought for
things to be changed in America, United States and continent. ~~There~~ There
are some people that are just ~~lazy~~ ^{lazy} and critical. Honey I don't know
what they doing all that for because nothing aint going to change. I'll
stay home ~~in~~ on my recliner, eating, enjoying my air condition and watching
TV. For example when the health care become manageable for everyone
Gail I thought it would never change. Honey I am going to try to be the
first one to get sign up. This is another example of how people can be.
They want to enjoy the benefits but never put in no sweat to get
things done. Wait on everyone else to do it. The ones who are
protesting and speaking up. This is encouraging word to you. People
may try to discourage you with negative comments or mockery but
continue to do what is you know is right. By doing what is right you
will be pleasing to God. Who opinion matters most. Be encourage
(Colin Kaepernick) ~~committed the possible career killing~~ who is he?
Colin Kaepernick was a second stream quarter back for the 49ers. What
happen to burn and his career. The NFL and the Americans feel that he
committed the possible career killing in fraction of choosing to ~~the~~
kneel during the national anthem his way of protesting police violence
and social injustice. To me this whole situation is petty on the team
that let him go and the NFL because basically you saying all
that matter is playing football. Football is important. I am
hard core falcon fan. I love football. There is many of celebrity
use their platform to bring about changes in our country. But
they have their jobs still. Second of all America has a freedom
of speech - that part of our amendment rights / constitution of
America. So what is the difference between Colin Kap Kaepernick
and a citizen that maybe a business man or mayor etc. My
question is if that was Gay Cutter or Tom Brady? Would it
been different if it was their. For which we know it took act of
Congress to have Tom Brady to set out four games for ~~with~~
infractum of deflating the footballs. There was no violence

involved in Colin Kaepernick kneeling during the national anthem. Colin Kaepernick is great football player. Somebody needs to hire him. Stop the pettiness. ~~let~~ let the boy play football and stop the criticism ^{him} about ~~him~~ doing something he had the right to do. Stop the systematic prejudice against him for real. If Tom Brady still playing he should be able to play. What Tom Brady done was not talking about change in our country. But brought an embarrassment. Inflating balls to win. Colin Kaepernick ~~etc~~ kneeling during the national anthem his way of protesting police violence and social injustice. Our military ~~is~~ should have not been upset because all of the things that our veterans ~~go~~ go through. The government is trying to get better without veterans and still trying to send our troops over to fight a useless war over Isis. So the ones from the military that criticized Colin Kaepernick really needs to apologize to him because he was right for ~~the~~ kneeling ~~for~~ during the national anthem his way of protesting, ^{police} violence and social injustice. Personally the list should have been longer than that what he was protesting for. We got to support each other especially if they are right. Look at our military that is ~~setting~~ set under scrutiny for transgender. Once again systematic prejudice. Personally all that should matter is that you can do the job. Your gender should not matter. As long as we allow the NFL, coaches, Ronald Trump etc. Basically tell you what you are entitled to and who you should be according to them. ~~and~~ we got to put a stop to the ~~the~~ pettiness. Continue to stand up for what is right and get back what is rightfully yours.

In Georgia there is a lot of cases that should have been reopened. Because some of the investigators, judges, DA, lawyers, Sheriff has been charged in a criminal case sent to jail or even prison. Even though this has happened in defendant's case, ~~that~~ ^{for example} a lot of these people in prison or jail serving time look like the county officials ^{for example} would say let us re-investigate their case because their lawyer has been charged in a criminal case. There is a possibility that their clients could have been sent to prison because of him or her misleading the case. Georgia is bad about holding people in jail or prison. Not caring about the liberty of the people. There is strong possibility that the people who handled the case could have planted evidence, like in my County, Decatur County, GA. There has been a lot of corruption in our judicial system. Some of these people may was on our case. Nobody is reopening criminal cases in that county. which needs to happen because how many people from that county. Had cases where the official falsified documentation, lied on reports and planted evidence just to get a conviction. I feel the FBI headquarters, Internal Affairs and GBI headquarter make them reopen every case starting from 1996 - 2017 re-investigate these cases. Trust me it's a lot of people in prison that shouldn't be.

Systematic Prejudice part #4

for many years the Georgia Parole board has been a hindrance to longtime offenders that is ready to hit the streets and be a productivity citizens. Majority of those inmates is not given a chance. I have a life sentence with the possible of parole. In Georgia you are automatically denied the first time you come up for parole. That is not ~~right~~ right because people are in for different reason. Sometime it's the result of a poor representation of a public defender. But in the eyes of the parole board everybody is guilty in their eyes and there is no possibility that a person can be innocent in the system. So when you come up for parole if you are innocent. you are taught to lie about something you had no knowledge about. The parole board wants you to be remorseful for a crime dealing with the crime. But the question here can you be remorseful for something you don't have no knowledge about. Things going to have to change when it comes to the parole board. They told my family a hot lie the first time. There is good chance he will make parole. Comes Oct 2011 I receive a letter I was denied for 10 years due to the nature of the crime. My children ~~was~~ emotional was torn down because they was told their mom coming home. They was young children. Now I came up August 01, 2017. My children which are grown now they are being told there is a good chance I will be home before the end

of year. I have been under investigation since last
November, 2016. Then my PED came August 1, 2017.
People who had PED like July 01, 2017 family being told,
they will have a decision from 6 to 9 mths. My institution
is clean not because I am trying to manipulate the
system. I have never been in trouble with the law. I
bail out twice then get into no trouble. I don't understand
why I am being ~~to~~ treated like a troubled ~~citizen~~
person. Georgia Prison is not over crowded because
of people entering in. It's because the parole board
are holding on to people that they can let go. The ones
they don't need to let go. That is the ones they release
so fast. Our poor families are just told anything.
That is not right people. For myself I was under
investigation 10 months you tell me I have to wait
6 to 9 more months, why? I am not a threat to me
one. I just don't understand the system in Georgia.
People we need people who will put more pressure
on the parole board and government. We are not
being treated fair fairly but if I was addict and
broke the law I would be on the street without
the sweat of my eyebrow. This system has got to be
handled better when it comes to people lives. We
got to stop condemning, judging and ostracizing people
