

23 Sept 17

Unacceptable terms of surrender... what ever do I mean? I mean that the enemy of this war of homo saps is stupidity vs sapience.

So you ask what do I propose... what are my terms TO BE released from this asylum?

I propose to pick up where Christ's disciples left off. Them of that era were subjugated by spiritual and secular suppression as well.

Observing the obvious, lets consider this new policy of parrolling a flood of social outcasts back into communities where citizens are overwhelmed yet again by other-determinism requiring them to compromise their self-determination not to hoste this flood of outcasts. Lets face it, the list of laws are suffocating the very life out of us all! So how can we restore ARC - the very essence of Life? ARC: Affinity, Reality, Communication, which together equate to Understanding.

On the "down low"? When LRH said to clear the planet, what did he mean? To rid the planet of criminals, insanity and war, requires some of us to handle criminals, insanity and war on the front lines.

Imagine the purpose of re-awakening the subjugated vulgarians to their inherent Eternal Nature, and reminding them of the corresponding responsibility outweighs any fear - even unto death!

Yes, I can see me out there in my blue overalls under a red and white floral sundress, laughing my head off at everyones confusion! Who is this guy wearing a sundress?! Yes; presenting a mis-understood problem of comparable magnitude in order to introduce the concept of "Merchants of Chaos" for consideration in order to usher in the deadly quartet.

I mean honestly, considering the Dept. of Corrections and Rehabilitation budget which tax-payers fund, its a wonder why citizens would fund this budget and yet oppose the flood of re-integration of rehabilitated felons. Ironically, the product of CDCR has a recidivism rate which warrants skepticism!

I mean, does anyone believe that Help is even possible? Our country has the greatest number of prisons compared to any other country in the world! And yet no one re-cognizes the similarity to Hitler's concentration camp ambition to secure Nazi Germany from undesirables?! Nazi's no doubt believed that Germany would flourish and prosper with undesirables gone. Remember how that turned out?

Allied Forces! It took allied forces to overwhelm herrenvolk ambitions. No less than allied forces will overwhelm this prison industry which produces a product evidenced by recidivism statistics. Any other industry producing such a faulty product would be held accountable by consumers!

So, why aren't tax-payers interested in what happens inside this country's prisons which their tax-dollars fund. Statistics of recidivism indicates a certain inability to re-habilitate. Yet, considering the budget and the salaries involved, there is definately vested interest in job-security.

Sapience Verses Stupidity. It's an Ezekiel 33 Watchman game where overts of omission must be handled with the Ax. *38: "Stupidity is the unknownness of consideration" trumpet blast! Awake and Consider why conditions exist as-is!

Consider why it takes a heretic TO BE your martyr. I AM that eternal Watchman blasting the trumpet for the love of truth. Wake up!

As a sidebar, I'm attaching a letter I wrote Tina Murphy in Sparks, NV. which was returned to sender - not at this address. Generating the randomness factor is what it takes for Lazarous to rise.
