RE: Happiness

Good afternoon. - Julia. R U enjoyin ^{it?}
Hope so... no reason not 2 unless "good grief"
has introduced itsself. Please tell me it hasn't!

[Moment of silence]

It's bright -n- sunny, with the occasional gust
of wind, way over here in Redgranite. (Don't
worry nobody else has heard of it either).
I'm ~~is~~ just waitin 2 B called 2 HSH
(prison hospital) 2 get my burned foot checked up.
The blisters startin 2 fall off, on purpose -n- on
accident. I'm just relieved that the lizard skin
season has subsided. Now, though, there's an
abundance of itching - that I better not scratch.
Amazingly enuff - sometimes when I think about
scratchin it, it ~~seem~~ seemingly scratches itsself!
Wonder if my guardian angel knew that part of
servin -n- protectin me included assuagin my itch.

Ur most welcome 4 the "Thank U" I'm makin a
more conscious effort 2 show gratitude 4 the things
people do 4 me, especially when they don't know me

from Adam -n- or didn't have 2 show me
NE form of kindness in the least bit.
So thanks again. The things U do reveal the
state of Ur ♡. Ur ♡ seems 2 B cozin ~~with~~
with "goodness" -n- "helpmate-ism" It's definitely
appreciated. So thank U 4 blessn my Nike
socks off with Ur last "post". Know that took
a lot of time -n- effort. Specially since I'm guessin
U had 2 look at 1 computer while typing
on another or keep goin back -n- 4th from
wikipedia 2 between the bars 2 wikipedia 2 ---
U get the jist. So I'm ever grateful 4 that
investment of time U put into disseminating
that intellectual information. Thank U Julia, sincerely Antoine.

U speak dutch, german -n- english. That's quite an
accomplishment. smite. Which is easier 2 learn?
which one is Ur 1st language? Thanks 4 not
sharing the "uninteresting" english stuff -n- 4
put'n up w/ my hand writing.

I wonder if Google wrote the "google" 4 Google?
Would think Larry Page -n- Sergey Brin would
own more than 14% of Google shares. Well never
heard of Alphabet till the day I got Ur response

Never knew the 'G' in gmail stood 4' Google
Now it all makes sense.. Heard of Google+ & Google
Maps - all the other Google amenities were
new 2 me.

Side bar → just put Google+ in my parole plan
maybe I can find a fashion design job
through it. Least a place 2 sell designs 2

I've heard of ~~video~~ YouTube even had a video
we did in prison as part of anti violence type
competition posted on there. Not sure if it's still
on there or how long they store "videos"
* <http://youtube.be/vy9IRVofpuQ>

Wonder if that's 4 the "voice" is named "Alexa". ??

It's odd that a company would have the
unofficial slogan "Don't be evil". Then even 2
use the phrase "Do the right thing". Sounds 2
me like there must be alot of temptations
2 "be evil" - n - "do the wrong thing" navigating
through the minds - n - thoughts of the CEO - n -
board members. - The things our words
reveal, even when we don't mean them 2

So.. a day after ur communication I was

glancing at a magazine called WATCH (TV guide)
-n- some fashion caught my eye. Especially a
Levi blue-jean coat that features "Google
Jacquard yarn made w/ metallic alloys -n- cotton fibers
It comes w/a detachable tag in cuff -n- the tech-
nology allows u 2 "swipe in 2 skip a song, swipe
out 2 get a "google maps" up date or tap 2
accept/reject a phone call.

Whew - sounds a bit much 2 me. In some ways
I believe technology has gone 2 far. We got
devices 2 control car devices -n- so on -n- so - 4th. Don't
~~not~~ need a "350 coat" on top of an iPhone, iPad, iPod,
iCar, etc. I don't want 2 B i-robot. I enjoy
do things the old fashion way. Still gone get an
iPhone -n- computer. maybe an iCar (I don't know how 2
parallel park) but a bike will be just fine! Even now
I be wonderin - what else can they do 2 the
"smart phone" B4 it's smart as it's gonna get?

Since U "cheated" I have no choice but 2 "give
U 😊 -n- thank U 4 ur honesty. That's amazing of U
~~to~~

well I did have a good day -n- promise 2 continue
2. It's who I am - even on "bad days" I know I can
-n- will make them better through a series of "right
choices" Does that make sense?

Thanks 4 expanding on ur sayin "bitterly funny." Something tells me U "talk" like that in real life. It's cool 😊 Shows ur poetical side.

Yes we R deprived ~~of~~ of such ~~tech~~ technological advances. We got computers but they R 4 "lookin up jobs" (though some addresses have been blocked, like McDonald's!) "doing legal work" - n - ~~also~~ takin one's GDP/HSED. We do have a kiosk 4 emails but have 2 pay 5¢ 2 send em, can only contact 30 people (this way) But 2 do so the outside person must buy \$10 worth of emails. Talk about put'n ur family in prison. We also R denied phone books (even the yellow pages) - well it's no bother I'm gone "google" me, when I get out "just 4 kicks-n-giggles" (n- 2 see how accurate it is) Also get me a Facebook page.

Well Julia ur goin 2 have an amazing day so...

have at it
peace 

P.S. Is there a way 2 keep blog'n with between the bars after one is released?
