Dear Liz,

Hi, I just wanted to send you a short note and let you know that when you responded to my e-mail, I was told it was so lengthy that it was printed out and mailed to me. Please know that I am not ignoring you. I didn't get it yet. Please be sure to read the blog I posted on our lifers banquet here. It was an amazing response from all that attended and once we get the video sent to the state reps offices, I can have it e-mailed to anyone and everyone. These state reps and their chiefs of staff are really out there to help and support us. There is not enough support for HB135. Who is your local state rep? I am trying to compile a list of what state reps support hbl35 and who doesn't. Would you be willing to make some calls about this? I'm sure the men at graterford could use this info as well. Let me know if you're willing to make calls to multiple offices. Also, always feel free to email me with any news or updates, I will never ignore you, not as a supporter of this movement or as a human being. Sorry so make this short, read about our banquet and drop me an e-mail. Please feel free to respond to anything I write on this site, Take care of yourself and can we get your man on my website? Have you seen it yet? www.fossilsandfeathers.org
Get back to me Liz, ciao
