

Dear Rita,

Hello my friend, how are you? I hope having a wonderful time with your family. Yes, I always get your words when you send to me through melanie. She is very good about sending me any email responses that I get. I also received the \$20 you sent to her for me, thank you very much Rita. Friendship & kindness like yours is something hard to find in places like this. I read your last email message that you sent to melanie, So you are in San Diego, oh no, now you are flying to Illinois to see George, I hope that nothing goes wrong this time. I am praying for you Rita. You do so much and you certainly deserve to be treated so much better, you deserve to have as much time with george as you can & it seems like they are always giving you problems about visits there. I finally heard from my daughter. I am hoping I can get someone to bring her to see me in the spring.

I am so sorry to have to be short Rita but it's 8:30 and I must shower and mail this before 9 pm. Take very good care of yourself, I look forward to hearing all about your trip & visit with George. Take care, hope you had a great time. I await your wonderful news. Ciao amica mia
