"God"

→ OVER →

God reaches hearts near and far,
And it don't matter who you are.
God penetrates the inner spirit,
And works wonders on all who hear him.
God comforts the disgruntled soul
And provides assurance when it takes hold.
God is far beyond ordinary
And powerful enough to cultivate healing.
God's a supernatural force of power,
Especially when life seems so sour.
God's the greatest gift you can ever give,
When you deny yourself so others can live.
God's a source of energy that can't be overlooked,
And He is the foundation that can never be shook.
