Pull Treatment - primary goal of prolonging life by all medically effective means. In addition to treatment described in Selective Treatment and Comfort-Focused Treatment, use intubation, advanced airway interventions, mechanical ventilation, and cardioversion as indicated.    In addition to treatment described in Comfort-Focused Treatment, use medical treatment, IV antibiotics, and IV fluids as indicated. Do not intubate. May use non-invasive positive airway pressure. Generally avoid intensive care   Request transfer to hospital only if comfort needs cannot be met in current location.   Comfort-Focused Treatment - primary goal of maximizing comfort. Relieve pain and suffering with medication by any route as needed; use oxygen, suctioning, and manual treatment of airway obstruction. Do not use treatments listed in Full and Selective Treatment unless consistent with comfort goal. Request transfer to hospital only if comfort needs cannot be met in current location.   Additional Orders:	B				th a pulse and/or is breathing.				
Discussed with:	C Check	In addition to tre advanced airwa  Trial F  Selective Trea In addition to tre fluids as indicate Request Relieve pain and of airway obstru goal. Request to Additional Orders  ARTIFICIALLY AD  Long-term artific	In addition to treatment described in Selective Treatment and Comfort-Focused Treatment, use intubation, advanced airway interventions, mechanical ventilation, and cardioversion as indicated.    Trial Period of Full Treatment.    Selective Treatment - goal of treating medical conditions while avoiding burdensome measures. In addition to treatment described in Comfort-Focused Treatment, use medical treatment, IV antibiotics, and IV fluids as indicated. Do not intubate. May use non-invasive positive airway pressure. Generally avoid intensive care   Request transfer to hospital only if comfort needs cannot be met in current location.    Comfort-Focused Treatment - primary goal of maximizing comfort. Directions for Healthcare Provider						
Completing POLST     Completing a POLST form is voluntary. California law requires that a POLST form be followed by healthcare providers, and						
<ul> <li>A legally recognized decisionmaker Directive, orally designated surroga whom the patient's physician/NP/P/ with the patient's expressed wishes</li> <li>A legally recognized decisionmaker decisionmaker's authority is effective</li> <li>To be a valid POLST, the form mus supervision of a physician and within acceptable with follow-up signature</li> <li>If a translated form is used with patienties or original form is strongly encoretained in patient's medical record</li> </ul>	<ul> <li>POLST must be completed by a healthcare provider based on patient preferences and medical indications.</li> <li>A legally recognized decisionmaker may include a court-appointed conservator or guardian, agent designated in an Advance Directive, orally designated surrogate, spouse, registered domestic partner, parent of a minor, closest available relative, or person whom the patient's physician/NP/PA believes best knows what is in the patient's best interest and will make decisions in accordance with the patient's expressed wishes and values to the extent known.</li> <li>A legally recognized decisionmaker may execute the POLST form only if the patient lacks capacity or has designated that the decisionmaker's authority is effective immediately.</li> <li>To be a valid POLST, the form must be signed by (1) a physician, or by a nurse practitioner or physician assistant acting under the supervision of a physician and within the scope of practice authorized by law and (2) the patient or decisionmaker. Verbal orders a acceptable with follow-up signature by physician/NP/PA in accordance with facility/community policy.</li> <li>If a translated form is used with patient or decisionmaker, attach it to the signed English POLST form.</li> <li>Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid. A copy should be retained in patient's medical record, on Ultra Pink paper when possible.</li> </ul>					
Using POLST						
<ul> <li>Any incomplete section of POLST implies full treatment for that section.</li> <li>Section A:</li> <li>If found pulseless and not breathing, no defibrillator (including automated external defibrillators) or chest compressions should be used on a patient who has chosen "Do Not Attempt Resuscitation."</li> <li>Section B:</li> <li>When comfort cannot be achieved in the current setting, the patient, including someone with "Comfort-Focused Treatment," should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).</li> <li>Non-invasive positive airway pressure includes continuous positive airway pressure (CPAP), bi-level positive airway pressure (BiPAP), and bag valve mask (BVM) assisted respirations.</li> <li>IV antibiotics and hydration generally are not "Comfort-Focused Treatment."</li> <li>Treatment of dehydration prolongs life. If patient desires IV fluids, indicate "Selective Treatment" or "Full Treatment."</li> <li>Depending on local EMS protocol, "Additional Orders" written in Section B may not be implemented by EMS personnel.</li> </ul>						
Reviewing POLST						
It is recommended that POLST be reviewed periodically. Review is recommended when:  The patient is transferred from one care setting or care level to another, or  There is a substantial change in the patient's health status, or  The patient's treatment preferences change.						
Modifying and Voiding POLST  • A patient with capacity can, at any revoke. It is recommended that revoke letters, and signing and dating this • A legally recognized decisionmake	time, request alternative treatment of vocation be documented by drawing	in collaboration with	the physician/NP/	PA, based on the
