Dearest Erne

Appropriately, the first day of winter I crest the ridge to hail Zeus in all my glorious nakedness to avenge Prometheus.

Somebody from zip 90022 posted my Scientology study-group log of 11-24-14 to 7-13-15, along with my journal through time ending 7-11-15. Post marked 12-6-17 with no return address ... ~~O~~The Spirit moves in mysterious ways!

I understand that the content of my 2015 Journal will not be understood by those who don't comprehend tech. terms. Obviously they are not the public I'm appealing to, tho some may find some of my thoughts interesting.

Who ever was inspired to return this log to me understands why I'm posting it Between The Bars.

Please take note that this 2015 Ordeal never once resorted to violent explosions! FORCE and INTELLIGENCE IS Key in rehabilitation.

than merely effect — tossed too and fro.

Bro! "CONFRONTING" — "BE THERE" is exercise to get out of our introverted universe — i.e. EXTROVERT!! Not so much as imagined @ Ability — but rather to get out of our own head and share the space with — and only with — the other terminal. ARC between terminals of comm outflowing/inflowing cycle of <sup>formula</sup> comm. e.g. Intent sent / attention rec'd — ack (confront). Beautiful!!!

Then — during morning meditation, it dawned on me; it's not a triune BEingness — Body/Mind/Soul, for the Mind is "Psyche" i.e. Soul! So the triune is rather Body @ and Soul @ which is the Genius! If there were a triune aspect between @ Body and @ Soul, it would be the intermediate CONTROL CENTER.

And with the "CONFRONTING" dialogue between Joe + Bill I see BAKER and Imam Games from their POV and consequently I'm free — in ARC+U — with resuming Self-Determinism

Intend to bring Demokit tomorrow for Ben to Demo for us. Healthy thetans actually inspire others to Be — right? Getting Angie involved in Chapel audit of management.

Determined to apply Gpp Appeal to religion gyps re Access!  
And Gpp App to my 22 trail for BRIDOR too! Why  
stick my neck out alone?! I've inspired Aaron on  
Dietary/Nutrition Appeal now in Sec Courts - and  
countless staff are aware of my CDCR Budget Campaign  
soliciting data.

1145 Max accepted Sun 1000-1500 Sen Study grp  
1850 Completed Gpp Appeal for BRIDOR \* post dated 7/14/15

<sup>a</sup> Appellant has been forbidden from receiving Scientology CD lectures  
per CDCR 22 dated 6-30-14 Response. On 8-13-14 Appellant began requesting  
RRC to Approve BRIDGE PUBLICATIONS, the sole publisher of all  
Scientology material. Appellant has maintained CDCR 22 comm line  
endeavoring to establish Scientology and obtain Approval to purchase  
religious CD<sup>s</sup> beginning from Appellants initial letter of intent dated  
13 May 14, consistently through to the last CDCR 22 dated 18 June 15,  
all the while receiving verbal assurances from both Imam Youness  
and CPM Escobar, that my issues would be heard at the next RRC  
- always "next month". Appellant has encountered this ambiguous  
assurance for a full year now, requiring this formal appeal  
(per: Person, 471 F3d 732 - 7th Dist Cir 2006) to effect change  
in policy. Appellant has written several letters/requests to the  
Chaplain/Review Committee, to receive more chapel time for  
those involved in Scientology in order to view DVD lectures/lessons  
that require indoor space consistent with other prisoners on A-Fac.

who get religious grounds space to be used at any time. Appellant requests additional chapel time to be set on actual DMS. (see Balawayder 217 S.W. 3d 20 - Tex App. Houston [1<sup>st</sup> Dist 2005]): Exaggerated response based on any security problems - thus violating First Amendment and subverts appellants appreciation of the value of good behavior/program participation in furtherance of rehabilitation: attempt to ban appellants from the same allotted time as the other religious groups is a violation of RLUIPA rights and is not a legitimate penological interest.

Action requested: Approve Bridge Publications as Religious Vendor permitting  $\frac{1}{2}$  hr to purchase CD lectures. Secondly, permit at least three times per week on DMS for Scientology Services. Thirdly, hold the mismanagement of Religious Affairs accountable for denying Equal Protection, to the same allotted time in the chapel classroom for religious study/viewing DVD's for Scientology members, as the other groups got; and grant appellants punitive damages of \$10,000, and compensatory damages of \$1,000 for violations listed above thus far.

Submitted as a Group Appeal, and copies sent to California Attorney General, Cal. Dept. of Justice; CDCR Director - Secretary; Office of Inspector General; Prison Law Office - San Quentin

Live the History !!! JAM!

This 602 literally becomes material evidence establishing legal significance both acknowledging Scientology Services in prisons, as well as BRIDGE PUBLICATIONS as actual Religious Vendor! As well as opens the door to purchase CD lectures.

copies of appeal to-sent! Fiat Lux!

1800 Appeal Copies at work / 1230 Grp / 1430 power shortage  
Lock down. All loose-ends completed as if anticipating  
some sort of ... storm? Muslims hating on the fact live  
disrupted their chapel dominance, could be reason to  
stay alert for opportunity to demo Mind over Matter ~~etc~~  
— hopefully AFTER I get to meet Yashua + Lauren.  
My stuff has been packed up — <sup>excess</sup> CD Music sold, extra  
stuff discarded ... preparing for storm + bloodshed  
I am absolutely confident I'll see and give everyone  
something to talk about for awhile. Can't avoid it  
with my full time yard job ... but still take out my  
Criminon Course / Sch books / and artwork projects  
— with assurance from friends-neighbors who will  
bring in my stuff if/when I get cuffed up out there.  
Kinda thinking I should send this log into the void at  
BRIDGE for Joe, to go along with the other he never  
has commented on ... just in case I'm not able to  
send it for some reason. But actually want to  
record Yashua's visit to make this resurrection  
from my glee of insanity complete with Yashua  
seeing his DAD — empowered proud + intelligent  
beyond everything he feared. Quite a morph from  
18 months ago Joe. Hope I didn't enturbulate you.

0700 Sweet dream of bubbly Deb woke me up at 0400, to notice the sky full of stars thanks to the black-out were still having. I'm sure there's no-one else with their nose in the window in awe and again I hail the unseen Watchers, Here I AM, longing for reunion — but whilest I AM here, I AM useful.

Then, I woke up again being cell fed and had to fight for a couple pieces of cheese for my vegetarian card. "One in a Million" isn't easy being ME. Good thing the waf didn't come back to see me put the cheese with a slice of Spam in my Spam and cheese breakfast sandwich, but that the great thing about wafs — they're wonderful soldiers who only obey force of intelligence... or... intelligent force. OMG — LOL!!! fresh outta bed standing at the door with no cloths on arguing for meat substitute... I spy with my eye: Homo Saps! Obese Medical techs gimping along carrying their meds to dispense to needy serv. facs. God bless America, I said. How in the world are these putrid people validated with their menial lives. I can't dispatch from this world soon enough! I said... and with the electric barrier down during this power-out, I'm sure the unseen Watchers proudly laugh... Knowingly. Ahh! I'm finally willing to put into print... "Hold-on while I transfer your call", is actually — it must be — "hold on while I record your call — as the Watchers who screen your mail at the BRIDG are concerned about security/liability issues",

after some of the incriminating things I've exposed - ambiguously. I've long suspected - and have always considered such Pal! I live in that cloak-and-dagger universe and suspect everyone of sabotage. I AM HERE with Purpose to Effect CHANGE! Some will harness the force... and some will strive to subvert it - and some will push and some will pull... be it what ever the case may BE, I AM hyper vigilant both in Work and Play in this life's campaigns. My Creator said BE! Wherein the only way I can ever transgress that Prime Directive would be - god forbid, to succumb to Apathy. Not to BE confused as the condition of Melancholia, by the way, where I sometime simmer and fume. So... all this rambling, after sewing-up all my loose ends, seems to be a possible indicator of impending Change, it does. Hail the High One's, I'm Blessed - BE blessed in your blessings and fare thee well. What would I have done differently, is the question I awake with today. From MY point of view from the Infinite perspective I say, I AM grateful for the Grace to BE, just as I AM. I've made ripples in the fabric of Mest, I've engaged and changed the fate of many, and those changes are permanent. Nothing I've ever touched will ever be the same - and Everything I've ever encountered is bound to BE accountable to a greater degree. Bound to BE! I'm contagious that way. Yea, okay... but let's say you've tied up loose ends pending a Transfer to a lower realm of hell following a

memorializing demonstration of Mord over bestial Saps...  
what then? Some will harness this Force - some will strive to  
subvert it - in either event I will Effect Change! Send Me  
to the lowest depths of hell, and I DO. Understand the Game?  
I must play there. MCSF isn't my first theater of engagement  
- and as much as I pray it's my last, there's still work I can  
do... anywhere I AM sent - as long as I have resources  
at the BRIDGE, I can bring Sen tech to the very depths.  
I have the god damned Key archived with R which will serve  
to both ack Sen Ministry as Advocate of Justice, while escalating  
SPD's ultimate responsibilities to AUDIT accounts. Who  
did what will ruin careers, and bury some in overwhelm  
games... I'm willing to play. I'd like to reserve that Key to  
apply when it best suits me of course, for instance; after  
Black Muslims insist on violence, I intend to parlay that into  
a catalyst exposing separatist extremist (Isis type) "religion"  
fostered by COCR, and in particular - the Imam's. If Islam  
means 'submission', then the Priesthood is responsible! Take  
Pork off the menu, will you?! I will avenge That then,  
and take Islam off the menu of Black refuge state wide!  
Forces that BE in the COCR Admin. can appreciate a German  
champion exposing Blk Muslim dominance/disruptive "gang's"  
occupying Chapel space like a ghetto 7/11 parking lot! And  
if/when I focus Attention There - which will focus on ME,  
then it will be time to get on that escalator to disappear

and disseminate Son in the lowest regions where our strongest dwell in hell. But what about contact visits with your grown children which you'll sacrifice (the hope of) in those lower regions? "MY CHILDREN" aren't "mine". This god damned pathetic Homo Sap cond is my responsibility to stir-up, including them. I do not live for The Hope of, nor compromise in fear of. I Effect Change! It's what makes Loki a God! Loki and Heimdall, the 'Dark' and the 'White' gods of the Norse pantheon, anthropomorphing Universal catalysts... Hail Heimdall! Hail Dagaz! Heimdall, father of evolving man — and Guardian of the BRIDGE Bifrost. I AM. (Power back on 0930) It's no wonder retarded obese pathetic homo sap' do everything possible to entrap thetans in stupidities / implants / etc. to stifle our innate Ability to aspire ever higher to BE! It threatens them and their complacent status quo. Maybe Someday my progeny will proudly recognize I was never intended to domesticate our species and accept the ennobling charge I bore as heroic herald... perhaps one of the last, sadly.

This certainly was a mouthful to spell out this morn! Now... thankful for the Pork in my care package, I will finish up the Hummingbirds in watercolor for Montana Mike and Merry, quid pro quo, while I can. When every day is your last, procrastination is a sin!

And considering bk muslims are coming off their month long fast  
on Friday 17<sup>th</sup>, our new Sunday Sen. Service 1000-1500 may  
instigate Sgt Peterson to contest both Sen. time (5 hrs) and (start the  
Islam Saturday Service (7 hr = 8<sup>30</sup>-1530), and re-establish a less dom-  
inating chapel occupation — which of course will be the final straw  
for those ghetto thugs. Hail Tyr! Fearless and proud I stand firm  
to protect my Kin. The front of the fight is my chosen place.  
Hail Tyr! Hail Tiwaz! Hail Victory! S I G
