Ablaze - yet not consumed ... like their Burning Bush metaphor. Let them re-cognize fearless, powerful, peace. Let them re-cognize Confidence of BEing Responsible.

7/7/15 - Insinced last night at rpt^s of broken agreement re: gap format, i.e. DVD viewing while others trickle in and everything is being set-up - then discuss any questions or cognitions re: DVD completing that comm cycle - then move into old business e.g. practical philosophy/applied-tech throughout the week WIN^s "where did we apply the tech the past week" - demonstrations, book rpt^s - course material done/cognitions, etc. Everyone is permitted floortime to present their "old business" **STRICTLY REGARDING TECH!** And then following "floortime" SPO gap begins our gap cohesion course/routine/exercises.

Instead I hear it was idle chatter during DVD until ~~all~~ enough were present to turn off DVD with no review and after handing over WIN^{WU}, moved right into another lengthy TR-O for the entire time - except for lollygaggers showing up for the last hr. - and Lenus - who has done no Sem. effort, takes Ben aside for face time away from the Sup. duty? Seriously?!

Very small insignificant thing riled my ire because my Dom. Serv. fac is so keyed-in - which is why I've left the gap - supposing I've est. the foundation and layed out agreed upon design ... So this morn, waking up, I recall zygotic developments are what they are and the

homo-sap. cond. is what it is because the architects relinquish designs to the cheating lying and thieving workmen who are prone to cut corners and use sub par material - disregarding the architects long term vision. For instance the once great dream of a REPUBLIC - reserved for Responsible land holders is Vested in long term servitude of a Nation.

Those illustrious American noblemen laid out the best laid plan - and 200 yrs later look at what a God forsaken mess a Democracy made of it! Sadly... Nobility can present a glorious foundation "for the people" ... yet, without a whip to enforce the highest ideal - they prefer reckless abandon for living in the moment - disregarding the labor it took to achieve this state, or the responsibility necessary to maintain

See Bush - a sycophant he was placed there because he served men who counter my belligerence with the Muslim SP ... fully aware this may be the downfall of SP's standard of accountability... in both accounts. Be that as the case may be - people resent belligerent beacons reminding them of their ... shortcomings. And truth be told ... let the masses of homo-saps play in the light while there is light - and let the light do what it does.

1600 Following this morning's ruminations, I got worked up into a frenzy checking with others and

YASHUA APPROVED

discovered Vu knew that he should have spoken up to defend our self-determined grp purpose. Andrew also admitted to seeing out policy which should have been addressed, but he didn't feel it his place. Bullshit! When you fail to address and correct what we've all agreed upon (DUD + Renew / old bus Demos/etc) then I must address it in order to keep this grp on course. Once again explained the basic function of grp activities to B - regardless of who shows up! Play DUD for first 1/2 hr or more while setting up material etc and then after all that - discuss the DUD. Then go into old bus and open floor for WIN^s / Demos for all at their gradient. Some at the more advanced may initiate twinning exercise TR^s / Objective Processes / co-audit/etc (Ben as there to Sup. and correct technique - question application, etc as well as take WIN / Rpts out to Sen community to foster support and interest). STRATEGIC ADMINISTRATIVE SCALE sez it all doesn't it?! This strategy is so easy to maintain and DPLICATE interfunctionally! Nurture personal WIN^s - per individual gradient. With SAS foundation the SPO grp can expand into LIC^s / Crim crm / M-course - all while tutoring new aspirants through BSM / Sen Hb^s. 1800 I'd definitely have Caved in if my Ethics were ever compromised anywhere the past year! Yashua and Lauren are approved for visits now, and now I can stand proud with my SPO Win. Thanks Joe.

for Crimination U.S. listing course titles FREE,
hoping to boost Crim/Sen PR in prisons. As an
aside I also listed Joe Riley @ BRIDE address as the
person to ask for a free Sen catalog + booklet "Something
CAN be done about it", just as my way of saying Hi-
Joe! and perhaps generate revenue. More catalogs in
prisons across this nation rises the odds of orders
and perhaps spread SPD's. Hi Joe! This prison
outreach isn't going to take root by thinking about it.
It's not enough to know - we must DO. Your
goddamned ARC break from/with me since the
April 6th offence is your business to justify "friend".
I will not waste my envelope writing into a
void of ignor - and, nor bother raising your
phone bill to hear nothing significant other than
excuses and empty promises to catch up on old mail.
I think you can see my charged up bank serv
fac. of dominance expressed in antagonistic effort
expecting me to cave in or something. Your ARC
break in after all th' in my obvious SAD EFFECT
(attention violence?) definitely indicates a Responsibility
factor involved. I love it! This game of your
silence. Was the belligerent GE overwhelming
your ability to postulate - counter postulate? PROBLEM?

1000 Avote again plotting on overwhelm games with nothing to lose, and it dauns on me: Suppressive Imam; I do UNDERSTAND his SP-ness; I have ARC with the game. If every manipulating Ym with Religious Accommodation requests werent 'suppressed' and discouraged — there'd be every sect of every religion imaginable here! Therefore SP/PTP relationships roller coaster a case and the remedy is #1 = MAINTAIN ETHICS! BE SELF DETERMINED SANS GUILT. #2 HANDLE and/or I've done both and also #3 DISCONNECT

aimed to blow SPO as PTS ... for other's sake.

At this point I'm far too charged-up to dare any auditing and further enturbulate available theta. I already find myself snapping at people who challenge me in the least — and constantly I'm plotting to overwhelm in every effort counter effort game.

BOLIVAR'S ERRORS in the LIFE ORIENTATION COURSE failed to ack others on the stage have a need to BE.

I on the other hand prod others to BE accountable toward ever greater responsibility per zygotic evolution effort counter effort overwhelm games. Everyone has a part to play — and mine is to insure it is BEing played optimally. Pray tell ... where is there a place for the Special Olympic's "athletes" (?) then? At McDonalds? Do you know why McDonalds hires the handicapped?

to Survive! The prophetic Cyborg fictions will certainly become a reality if there aren't more wolves stirring up randomities, I'm sure as sure can be! Look at the tech we've sent out to tour our galaxy's planets if ya doubt it.

I wonder if ye question my Blk+Pink (Radical Queer prison publication) intent with introducing Crimunion crises + addresses around U.S.? Some must harness the opportunity in U.S. gulags, and wrest rehab from the Implanting Psych depts! Prisons are rife with malcontents who will rile the complacent dolts into a self-defence motivator to evolve or die, if given the chance — and "training". LRM Tech can work with the Angry DO-ers of our species, much easier, than the Apathetic conciliator's prone to appease! But wait... there IS the matter of Revenue, huh? How well does Crimunion serve the greatest good to the greatest number of dynamics... and at what cost? It's all volunteer network with Fundraising campaigns yet — rather... less than ideal, lets say. In 30 yrs Crimunion has remained Crimunion with the same ideal scene as originally manufactured before the Prison population exploded and psych depts infiltrated! I do aim to overwhelm Crimunion with Prisoner request throughout the penal system in the U.S. in order to create a situation where VM's may intro SPO's

where Criminon acks. warranted ~~Attention~~ Responsibility.
Where is the revenue in these SPO's? Fundraising WIN's
raising Interest of Patrons of Rehabing wayward Thetans
Fundraising Criminon seems to have worked thus far
without much PR re Rehab... so it's time Criminon
shares her responsibility with VM's rising SPO flags
around the nations prison system! SPO Strategic
Administrative Scale is duplicative anywhere! And is
in fact religious rehab introducing P.E's, LIC's, TR's, etc.
where as Criminon courses may also be enjoined - or
where possible developed into its own secular LTAG entity.
Fundraising PR will certainly grow grass roots
but I envision SPO as a catalyst of sorts to de-
throned psych industry in prisons! I see it so clearly.
SPO purpose... e-meter in chapels ultimately
serving parole boards (which currently employ psych rpt)
to help determine parole-ability. Is the rapist still
angry - do empowered women still provoke them?
Is the addict still addicted - is he repulsed at the
thought? Is the pedophile still charged up at thoughts
of ??? The challenge in this would be the psych
empire wresting control of the e-meter and their
overwhelming litigation (i.e. State Prison Psych Dept v. Sch.)
to secure vested interest of psych dominance as
THE AUTHORITY, along with vested interest of the

pharmaceutical Co.'s — with their corresponding alliances with prison admin/parole boards/etc. In this scenario Son Fabian stratagem would be to est. several SPO's low key with objective processes, TR's, LIC's, Son basics to substantiate Son as Religious "service" — reserving e-meters for special cases which qualify via ext-cse certs in order to avoid mishaps, spin-outs - cave ins, etc retreating to psych depts and therein banishing e-meter "processing". Just get the e-meters inside acked as religious equipment — then after a while of SPO WIN's demo'ed in the prison pop. quashing security threats/counseling/faming the beast to demo greater self-determined responsibilities, etc ... a few celebrities who visit SPO's and promote Rehab WIN's of SPO's and before long ... public oppinion or not — prisoners who are up for parole board review may hire their own lawyer to represent their clients rehab merit and rather than permit the board to rely solely on psych rpt., the lawyer may present their client as Son SPO rehab ... and intro. e-meter purpose onto the record to "mechanical device" substantiating infallible read on criminal potential. Several contrasting psych/Son parolability rpts esting statistics of recidivism between SPO grads and psych medicated, will WIN!

and in the mean time at least curtail psych abuse of authority.

That's that, ... while on the other theater I have plans to media campaign accountability of psych budget via Coleman v. Brown Mental Health Care class action

Since this case in 1995... lets check the stats on number of Transgenders in prison in 1995 receiving hormone therapy and the number of prisoners on psychotropics — then lets compare 1995 to 2015 (20 yrs) statistics. I'm sure that I can paint a picture that the country is locking up all the trans people off the streets according to the data

— which of course will #1 - Alert Trans advocates to get involved in protest, or #2 - Alert Society of psych depts in prisons transforming their once bestial men into Frankenstein monstrosities. In either case — if I can

get the budget stats for this, then my seditious name can get a by-line printed on the AP in my local paper around July 2016 — months prior to elections which will be when this will be most news worthy, e.g.

TAX DOLLARS FOR BOOBS / PHARM PSYCHOTROPIC

06/10/05 Woke up at midnight with Appeal Draft figured out so wrote: Appellant is forbidden from receiving Religious CD Lectures per CDCR Form response ^{date} and subsequently, Appellant form 22 requested RRC ^{Religious} Vendor Approval for PRIDE PUBLICATIONS, the sole publisher of Scientology Material. Appellant has maintained form 22 comm. line requesting Scientology Services and approval to purchase religious CD from Appellant's first letter of intent addressed to Chaplain and subsequent form 22's dated between — to present — all the while receiving verbal assurances from both Imam Yonus and CPM Escobar that this issue would be heard at the next RRC — always the "next month". Appellant has met with these Ambiguous assurances for over a years time now requiring this formal appeal per: Person, 471 F. 3d 732 (7th Cir 2005), — "Prisoners have a clear right to make complaints to effect change in prison policy" in order to comply with RLUIPA standards and intent.

Wow! B discussion yesterday re. CONF RUMORS/ and his sleeping "circuits" kept me wide awake following that barrage at midnight... and after flipping through the late night channels for an hour or so I layed wide awake willing to go back to sleep — with B problem.
