Concerning Globalization

North Korea leader Kim keep testing these missiles and threaten our country. But our president keeps making threats as well but recently hasn't. I want both leaders to stop this because at end of the day. We all have to work together. Listen leaders what we need to think about the whole picture. Kim you keep testing these missile. Do you thinking about the innocent people that your going to hunt. The same for America if we go to war. What is it going to resolve ~~or~~ not nothing. ~~only~~ A lot of innocent lives ~~take~~ taken. Look at all these unnecessary wars overseas. How many innocent people lives been taken. Did it resolve anything absolutely nothing. As leaders we need to put our egoism aside. Learn to work with others. Stop being selfish North Korea. Think about your people in your country if you go to war, it's only going to hurt your people. The same for America. We need to get the economy growing in America and overseas. Our people are suffering while ~~our~~ our leaders are dispute over foolishness. That when our leaders ~~the~~ focus needs to be. Globalization is very important. Because we have to export and import goods to and from. Their needs to be a peace treaty with all countries and America. Stop being so difficult with each other. Donald Trump needs to learn to work with people. He is difficult in how on people. DACA those innocent immigrant children why are you messing with ~~the~~ the children. What kind of heart you have man.

World leaders and Our leaders of United state leaders needs to work together and gather in unity on these different situation. I am tired of Donald Trump ~~his~~ tweets.

It time for unity and proper planning to situation to resolve them.
