Part 3

How do I know it's NAZI practices... Because Germany was a powerful far right regime. The socialist regime that has penetrated the globe causing the world to unite to defeat them does not gain such status off of ridiculous unsound social strategy and philosophy...

Everything they did had to be concrete. For example they design one of the most unmatched firearms in existence. The Ruger... not the ones you see today... But the original ones.

If you're into self-defense and a design similar to the ruger exist you would be a fool to not acquire one.

The sole purpose of the design was/is to reduce the recoil of the weapon when it's fired to maximize the projectile course of accuracy.

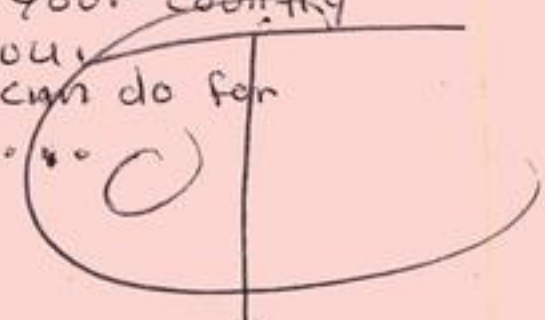

All forms of NAZISM is a troubled and none-profitable course for ethnic people... But not all technology...

During WW2. The hateful racist American government captured hundreds of thousands of Germany NAZI special forces troops and ~~brought them to the~~ brought them to the shores of America towns... In the 40's. pretty soon, an already evil racist white American KKK society became a NAZI Germany American society... which no doubt created the Detroit 1960's segregated 8 mile wall and community. The police policy and social strategy of the U.S. Government. Just compare the two social ideology and practice of NAZI Germany and the US Government today.

Where were they...? The special forces NAZI troops... in the feds... They took over the states from the inside-out. go to NPE. Listen to the story on it... If you wasn't a NAZI or sympathizer in those towns, cities, states... you wouldn't make it...

What year was it?... when the ~~us~~ U.S. Army had numerous of brothels at a Army Base subjecting them to mustard gas as part of military testing... I guess Lab Rats was off the list... We were better.

With this in mind... The question arises that these racist ASS NAZI put before me Cice, Jennifer Peddicord, Trish, Carleen Grimes, Nicole Knuff, Sarah Rutledge, Lisa Morrow, Richardo Michel, Don Zardnt, Richard Freer, Michael Watson, etc.

Ask not what your country can do for you. But, what you can do for your country...
