TWTH Proposal > wants me to spell it out for him:

My vision for TWTH grp ~ This IS a SPO activity!
and as such there will likely be a Sen. Volunteer eventually,
periodically facilitating the grp. > especially at Cert ceremony.
Therefore it is imperative to maintain TWTH course in accord
with the Facilitators Guide. It is a simple matter of following
the Facilitator Guide so that each succeeding Facilitator
and/or Sen. Sponsor, can expect and do the same.

Our first group, I suggest recruiting the rainbow
family and get them involved in order to establish ~~the~~
Paradigm of all future groups. Our first group will be
TRAINING the "experienced members" of future groups.

To explain my vision for TWTH LTAB: I see rainbow
folk attending SPO TWTH grp, for the joy of community,
studying the simple precepts and receiving a Certificate.

The only concern is #1- Keeping the group in-policy
following the Facilitator Guide exactly #2 Girls tend
to get snarky in community groups so we need a
strong patriarch type facilitator to keep order & peace.

Also need matriarch type aid to mother the group, and
maintain lighthearted (Happy & Gay) environment.

Of all of us... she kept asking me - to clarify points, and
then clarify those points, finally nodding in Act and affirm-
ing I'm "very close" to the... the what?! Final Liberation?
Just "Very Close".

Later in the day the validity of hostage crisis relates to
New year rune pull ↑.

Then Gopher hunting at work, dawned on me SP no
effort counter effort game into ARC Break case WW

WW overwhelmed by SP counter efforts via Overts!
cf. SP campaign to frustrate ME, almost had my overt
re-action - directly and/or indirectly. But aware of
awareness rose above re-action to enthrone influence.
Poor lil gopher piling diggings up on "my" lawn. I've guarded
against all trespassers ... almost got gassed in my
counter effort SP frustrations, which is overt on several
levels! Yet ... cleaning up its mess off the grass, I was
impressed by the determined effort this creature displayed.
Very Industrious - gotta give 'em that! Finally got the
water hose to flood its effort and win this game though
and now it can battle wills with homo sap ... here's
the overwhelm SP lesson: Make it swim in nemesis
- and once it is too exhausted to swim any longer, pick it up,
dry it off - and warm it back to life. Much the same as
breaking Mustangs. Domestication is merely death
compramised.

1400 > follow-up note "Quiz" to T prep for group. Much
the same as with Will note - with Scr. tape + tracts. Have
determined to "you've got mail" these guys to keep them on track
with ARC.

JOE - Lets honor Orderly Universe and charge fees
for Ext. Crse / Basic Bks which we can do similar to
theo. U. 1/2 price stamps. In not wasting my time
and effort on those with no ambition!

0130 - cont.

1545 > Caught Escobar at 1500 and inquired about Material in limbo. "Boxes on boxes on boxes" he sez "enough for 300 You's!" So naturally I remind him of our need of Sen. Locker (s), "Too much stuff to burden Chapel with - for a few Senist," sez he. We'll see about that, sez I. Perhaps if there is a list of items to choose which to keep at A. Fac., but... that list becomes mine for litigation, if he does that. Point out to Max - Buddhist locker unused / Jewish locker unused / Christians have entire closet / Indians have 3 lockers / Muslims have book cart + locker. * See Max Sunday with Prospectus for Imam and Escobar - suggest Sandbag tactic: give them Prospectus + List req. for locker - at meeting.

0645: (72) Awoke last night 0100 - 0200 watching @ @ 0230 got up to write.

I see it so clearly... the purpose of SPO: e-meter in Chapel. Ultimately serving Parole Board (who currently employ Psych reports) to help determine parole-ability. Is the rapist still angry? Is the addict still addicted? Is the pedophile still charged-up? The challenge to this is the Psych. Empire wresting control of the e-meter and overwhelming Sen. with litigation (State Prison Psych. Dept. v. Sen.) to secure their vested interests, i.e. Their Authority Post... Pharm. Co.'s... Prison

Staff/Parole Board Alliances... et al. In this scenario, Fabian stratagem would build up SPO's lawkey with TR's, ^{Life Improv. Courses}, Sen. Rudiments, etc. ^{co-audit?} to substantiate Sen. as religious "service".

Reserve e-meter for special cases... qualify via ext. crse. certs. in order to avoid mishap ^{cover in} spin cases retreating to Psych. Dept. and crucifying e-meter.

"Thank You for validating my existence", is what I said when we met. You've mis-attributed my tremendous gain to Av38? Granting Being-ness can stop a mad elephant in its tracks! according to LRM lecture 19 July 54 Sen. track II: "borders on the supernatural".

0750: Watching robots in chow hall epiphany: these thetans chose to locate inside Identifications. Thetan's boxed in Anchor Points!

0201 (cont) "There is nothing more real than anchor points", MY ass!

0950: Return from church. Delivered 3 Memo pac.^s to Max., briefly explaining Intent, wherein rec'd (confidential) assurances. Good to know. Interesting sermon later, discover Max lacks Borrowed Facs produced in Hollywood - "can count the movies he's ever watched on one hand". Further realization while watching rdmtation... this is a very stupid universe whereinat Considerations seen verboten.

Almost got up to confront the regular grp of idiots loitering with the Musten deck making too much noise, disregarding Jehovah witness class and Protestant services... but rather than put my cards on the table at this point, decided not ^{to add battle fronts} my service (for) "responsibility" - then what do you know, the ol crazy col. brought over the cops to disrupt loiterers. Useful force to have at the door at Scn., think I will offer mag. to develop ARC. 😊

- 1) Hair cut and clipper's lesson: be vigilant to maintain control factor and
can determine retard origination "trim a little - clean up / "sharpen blade",
and forewarn against such.
- 2) Keep in mind homo sap status quo and allow them that cond. I tend to
make people feel stupid / lame / inefficient. Particularly those in positions
of authority.

0610: Up at 0230 - 0400 busyminded on events related to chapel. Lucid dreaming type moments scripted veiled threat to cooperate. Suggest Islam Activity List 4+ times/wk. is easy target for Staff Misconduct "Favoritism" complaint. Younus must have Political/Law Enforcement ambitions, this rpt inside personnel file would 'effect'. Let Sen. help occupy Space to prohibit other unsavory grps. Fri am. nice. An occasional Sat. for outside guest

0620: Good thing Younus was late on the yard (RRC?) as permitted diplomacy w/ clerk and cool off prior to engaging Younus — who ack-ed "box" released for inventory. Propose taking responsibility to obtain Locker — ack-ed. Doesn't understand why so "intense" in effort to obtain Sen. rights — it's all in your head, this battle is.

Yea... its restimulating past engagements and I'm cognizant of the Then and Now theaters, so Thanks for allowing me to work through this... yet... lets not discount CDCR's main dept. receiving the most litigation is concerning Religious Freedoms, so this "fight for fighting" isn't all in my head! He almost seemed offended when I told him this "fight" was merely a game,

1730 Brainstorm - CPM/Chaplain's delivery of Sen. material between 3 facilities? Max overt? Fine!
