2-18-18  
Thurs  
Don't ask because I don't know. At this point he gave me the bum rush out - said he had a meeting to go to. I still need to renew my med + my chronos - said he would get them next time. Nice looking morning out, a little cool right now but the temps have been up in the 70s the last week. I want to thank Joy for for my post and the note. It has been so long since I've heard from anyone I wasn't sure the site was still up and running.

2-19-18  
Fri  
Always wear a smile, be kind, caring, and loving and you'll always be beautiful. It looks like it's going to be a bad day. I got up, brushed my teeth, turned around to put my toothbrush away when I turned back around the waters off, Cold + Hot - so I wasn't able to wash up. I had water in my hot pot so I'm drinking coffee. Friday is not a good day for your power or water to go out - it could still be out come Monday. So now I'm trying to tutor my celly to take the Tape Test - he need a 7.9 (they told him) before they'll give him his HSD. When he took it a few months ago he only had a 3.6. I'm trying to help him with Math right now - he knows the stuff he's just lazy and someone told him he had a learning disorder - nothing wrong with the kid except being a teenager and wanting to play all the time. He has less than two weeks to get ready. Getting a HSD takes 90 days off his time - that's 25% of the time he's doing. My hair already thin and white, soon I'll have none.
