

The things to know about Jenniker Johnson

What are some of your fetish? Mine fetish is that I love the sound of a fan and cool air it makes me sleep so good. Another one is I love the smell and sound of the raining. When its raining I love to open my window so I can smell the rain and hear it. Which makes me sleepy. My final fetish I have love for seashells, when I was little. Couldn't go to the ocean like I ~~wanted~~ wanted to. If you put your ear to the seashells it sound like the ocean waves. The sound is so beautiful. At least in my little world when I was younger.

What comfort me in a time of loss? A teddy bear. When I lost my children to foster care, my husband to prison. I slept with a big white and red Valentine bear with a heart on his stomach. I did that everytime I would take a nap or just go to bed at night. I would sleep ~~with him~~ hugging him in my arms. The bear soothed my pain on the inside. So what comfort you in the time of your loss or stress

What are you obsessed with? For me I am obsessed with Donuts and Donut whole. I can eat more one dozen of them. Cheese I can basically eat on anything. I can eat the whole pack or block of cheese. Cheese food I can eat seven days a week. I can never depart from these ~~the~~ three things they are the love of my life. P.S oh don't forget peanut ~~and~~ with m&m candy that is my passion and the love of my life as well.
