

I am so
THANKFUL
you are in my
world!

@LisaBevere

Americans, United Nation and Continents
I love you all

The strength that is broken

Everyday some where in the world a family is being torn apart either by a family member ~~choice~~ or government choice. I have always been strong in my belief that there should be unity and love in a family. The family is what holds a generation together. When the family is broken down our nations ~~strength~~ suffers. Nation's strength is family strength goes hand and hand. When I was the leader of the sound technician team. One of my members would be on schedule to do a service or obligation. They would ask me could I be relieved because I have to talk to my family on a visit with family. I said yes, I took up the responsibilities myself because their family was more important ~~than anything~~ to me than anything. Nation's strength: family strength 1 Kings 5: 13-14 Holy Bible. Solomon drafted three times the number of workers ~~needed~~ needed for the temple project and then arranged their schedules so they ~~didn't~~ didn't have to be away from home for long periods of time. This showed his concern for the welfare of his workers and the importance he placed on family life. The strength of a nation is indirect proportion to the strength of its families. Solomon wisely recognized that family should always be ~~to a~~ a top priority. As you structure your own work or arrange the schedules of others, watch for the impact of your plans on families. ~~From~~ Donald Trump ~~and~~ the American people and his staff needs to be careful about this immigration situation. Anna Lopez lost her son Nelson to a deport that should not happen. The judge orders him to stay in United States but some how during the night her son was put on a plane in took back to Honduras where he tried to escape the ~~gang~~ gangs. That's why he came to America. But he was took back to Honduras prison where he died in a fire innocently because he didn't have no charges. ~~Paragraph~~ This is a short version of the story but you can go online under Anna Lopez story. I cried when I heard her story about her son. Why I care & care about people. I wish every judge in American would stop these deportations completely especially of these people living

their lives in peace. Has not committed no crime. They aren't bothering nobody, leave them alone. A lot of them is not taking from our economy. Actually they are contributing to the economy. I do believe they should pay the same taxes as Americans. But don't split their families up. In America we got to get out of this mindset that Donald Trump has everybody in. Valuing personal gain above people. Everybody is someone special. Deserve to be treated as right. There is a purpose for the ~~immigrant~~ immigrant being in America. One they help build this country. How then we treat them as a nobody. God is still using them for his purpose in this country. We eat because of them. How many of our American people go out there in a field to pick vegetables. Not many that what I thought. Matthew 1:1-17 Just as God ~~used~~ used all kinds of people to bring his son into the world, he uses all kinds today to accomplish his will. And God wants to use you. Does President Donald Trump profess to be a God fearing man. A Christian. The God I serve does a number of things. 1. God personally care for hurting people 2 Kings 4:32-35 Elisha's prayer and method of raising the dead boy show God's personal care for hurting people. We must express genuine concern for others as we carry God's message to them. Only then will we faithfully represent our father in ~~heaven~~ heaven. God does not place that the immigrant are ~~here~~ here above their needs. placing rules above human needs. ~~at~~ Matthew 12:10-12 The Pharisees placed their laws above human need. They were so concerned about Jesus breaking one of their rules that they did not care about the man's shriveled hand. What is your attitude toward others? If your convictions may not be in tune with God's word. Don't allow rule keeping to blind you to human need. Should you break the law to meet someone's need? 1 Samuel 21:1 Ahimelech had to go against the law to give the ~~consecrated~~ consecrated bread to David because the bread was supposed to be given only to the priests (Leviticus 24:5-9) But Ahimelech put David's need and life ahead of religious ceremony and fed him the ~~consecrated~~ consecrated food. This upheld a higher law of love (Leviticus 19:18). Centuries later, Jesus would refer to this incident "to show that God's laws should be applied with compassion"

It do good and to save life is God's greatest ~~law~~ law Matthew 12:1-8
(Luke 6:1-5) There is a reason I always say we all need each other
Whether it's in America, United Nation or the continent. We cannot make
it without each other that why the strength is being broken in our
families and nations because both goes together. I always say I
appreciate everyone. Let's others know they're needed Numbers
16:29-32 By complimenting Hobab's desert skills, Moses let him
know he was needed. People cannot know you appreciate them
them if you do not tell them they are important to you.
Complimenting those who deserve it builds lasting relationships ~~and~~
and helps people know they are valued. Think about those who
have helped you this month. What can you do to let them know
how much you need and appreciate them? Thank you for all
the hard work you do for us in America or overseas. Thank you
every nationality. My final thought is what keeps a person from
being sensitive to a person needs or being concern for another
person well being. Spiritual matters blind us to needs Matthew 15:23
puzzled by Jesus silence, the disciples asked him to get rid of
the woman let's put immigrant here because she was bothering
them with her nagging persistence. They showed no compassion
for her or sensitivity to her needs. It is possible to become so
occupied with spiritual matters that we are prejudiced against
needy people or ~~not~~ if they cause us inconvenience. Instead of
being bothered, be aware of the opportunities that surround you.
Be open to the beauty of God's message for all people, and
make an effort not to shut out those who are different
from you.
