Subject: letter 2 my daughter

happy i am we wednesday priska

i love u n u r always on my mind n in my heart

i pray god is blessing u so much n that u come 2 know how much he loves u. journaling his love n what he's done 4 u n brouht u through helps u 2 see his love 1st hand n better appreciate it. ask me how i know? god has blessed me with over 10 jobs in the last 9yrs,all of which have been hand delivered 2 my door. i even literally been offered jobs while walking around minding my own business . how cool is that. even now as i strive 2 walk in obedience opportunitys just seem 2 come 2 me. just the other day i was asked,can u rap? i write raps but not gifted enuff 2 catch a beat... well neways the guy wanted me 2 rap a verse on this gospel song next month at church. told him i'd pray on it,though i do believe i'm outta here by MARCH 27. amen way i see it is god is showing me what my future holds. lately song lyrics just bcomin 2 me out the blue. yikes! but either way cause that's another way 2 make ends meet n leave u a legacy(royalty checks

pray 4 me

so what book r u reading ? how iis it ? write ne new poem latetly?

well keep praying know that god delights 2 hear ur voice n loves u even when he gives the answer of "no" 2 a prayervdoes that make sense

u shall continue 2 do great things

i love how u love u

i am we

love dad
