Sigard,

Monsters indeed! [L. omen, monster, fr. monēre to warn - more at MIND]
1b: one who deviates from normal or acceptable behavior or character. 2: a threatening force.

More at MIND? [L. mens mind, monēre to remind, warn, GK menos spirit]
2a: the element or complex of elements in an individual that feels, perceives, thinks, wills, and esp. reasons c: the organized conscious and unconscious adaptive mental activity of an organism. 9: a conscious substratum or factor in the universe.

You see, the purpose of the mind is to pose and resolve problems relating to survival Sig, and to direct the effort of the organism according to these solutions. It is a natively self-determined computer which poses, observes and resolves problems to accomplish survival. It does its thinking with facsimiles of experience or facsimiles of synthetic experience*. It is natively cause. It seeks to be minimally an effect. The human mind is an observer, postulator, creator and storage place of knowledge.

Monsters indeed! Created mostly by demagogues: [GK dēmos people + agōgos leading (to divide) - more at TIDE, AGENT] 1: a leader who makes use of popular prejudices and false claims and promises in order to gain power. Alas, the *synthetic experience, via EDUCATION [to rear, to lead forth] 2a: to develop mentally, morally, or aesthetically esp. by instruction b: to provide with information. INFORM: 1: to give material form to 2a: to give character or essence to b: to be the characteristic quality of: ANIMATE [to give life to] 3: to move to action.

Yes sir, fear is the trap: False Evidence Appearing Real. Being a SKEPTIC ([thoughtful, to look, consider - more at SEP] 1: an adherent or advocate of skepticism) IS the initiation you allude to. You have become an Initiate, I see. A Martyr, too! Know this brother Sig, every new Initiate affects the noosphere influences. You've served that influencing purpose for many, who in turn will influence many others. This is encouraging to me. Thank you for visiting my blog site. Please share your success stories here too. Noblesse Oblige

DIANETICS: THE MODERN SCIENCE OF MENTAL HEALTH

EXCERPT FROM THE CHAPTER
THE REACTIVE MIND
by L. Ron Hubbard

Man's mind is the command post of operation and is constructed to resolve problems and pose problems related to survival and only to survival...

If there ever was a devil, he designed the reactive mind.

...The reactive mind is possessed by everyone. No human being examined anywhere was discovered to be without one or without aberrative content in his *engram bank*, the reservoir of data which serves the reactive mind.

What does this mind do? It shuts off hearing recall. It places vocal circuits in the mind. It makes people tone-deaf. It makes people stutter. It does anything and everything that can be found in any list of mental ills: psychoses, neuroses, compulsions, repressions...

What can it do? It can give a man arthritis, bursitis, asthma, allergies, sinusitis, coronary trouble, high blood pressure, and so on down the whole catalog of psychosomatic ills, adding a few more which were never specifically classified as psychosomatic, such as the common cold.

And it is the only thing in the human being which can produce these effects. It is the thing which uniformly brings them about...

This is the mind which keeps war a thing of alarm, which makes politics irrational, which makes superior officers snarl, which makes children cry in fear of the dark. This

is the mind which makes a man suppress his hopes, which holds his apathies, which gives him irresolution when he should act, and kills him before he has begun to live.

If there ever was a devil, he invented it.

Discharge the content of this mind's bank and the arthritis vanishes, myopia gets better, heart illness decreases, asthma disappears, stomachs function properly, and the whole catalog of ills goes away and stays away.

Discharge the reactive engram bank and the schizophrenic faces reality at last, the manic-depressive sets forth to accomplish things, the neurotic stops clinging to books which tell him how much he needs his neuroses and begins to live, the woman stops snapping at her children and the dipsomaniac* can drink when he likes and stop.

These are scientific facts. They compare invariably with observed experience.

The reactive mind is the entire source of aberration. It can be proved and has been repeatedly proven that there is no other, for when that engram bank is discharged, all undesirable symptoms vanish and a man begins to operate on his optimum pattern.

L. RON HUBBARD, FOUNDER

* **dipsomaniac: a person with an uncontrollable craving for alcoholic drink.**

Much Love,
