

March 24, 2018

Dear Rita,

Hello my friend, how are you? I hope well. I have your last 2 comments that you wrote to me and I beg you to forgive me for taking so long to write. I M NOT EVER IGNORING YOU OR ANYONE ELSE. I just feel so overwhelmed some days my dad is dying, the cancer cells are causing internal bleeding and dad is in alot of pain, he wont live much longer he told me. To have no parents anymore, the people I loved the most and the only ones who loved me no matter what, it hurts. I am depressed. As for my daughter, she is tiny, just 5 feet tall I believe & she is funny too. I love hearing her laugh. She cannot call me but I can call her when I have money to do so. Just \$1 per phone call for 15 minutes. She is a good girl. Still needs some guidance. If you ever don't hear from me, you can send me an email if you become worried at robertpezzeca@gmail.com. I don't talk to Melanie anymore so my friend Jen, she watches over my email so if you send me an email, Jen will get it and forward it to be She is an amazing person and she and her husband Ben do so much for people I am very happy to have them in my life. How is your George? When will you go to see him? I am sure he is counting the days. I hope you have a wonderful time. So you have been reading since you were just a little girl. I used to love to read but I cannot live in a fantasy world anymore I must face reality. One day I would like to talk to the family of the man I killed. Its been almost 20 years and maybe thats not enough time but hopefully one day I can. I miss my mom so much, I listen to alot of the songs that she once loved. I do adore the puppies Rita, I absolutely love playing with them almost every single morning on my way to work. Did George get the Valentines gift you sent to him? I hope so, I'm sure he will love it. Prison mailrooms are so very bad. Ok, you said on March 23 you leave so that was yesterday I am thinking of you right now and hoping you are having a amazing visit with him right now. Please be sure to tell me all about your visit when you return. In here we are working on creating a program that we can help pay for the education for a child who has been affected by crime. We will use important people in society who will help select the children who will get the money to pay for school. We do what we can and this is new so we hope it works out great. Well my friend, please forgive me for being so short with my writing but I must go Please take care of yourself and I hope you had a wonderful trip to Illinois. Looking forward to hearing about it take care Rita and write when you can. Ciao my friend.
