

## I am angry today

So many people accuse me of being angry when I write certain articles. Well today I am angry. The people I am angry with is my fellow peers (inmates). Every time something happens at a jail or prison. Who do the inmates blame - the shift supervisor Lt, Sgt. Deputy Warden, Warden or the jailor. I can say when I am at they do their jobs. The staff is excellent. But what makes me mad is when inmates call their families telling lies or mistreating the staff. I believe in equality on both side. But let's talk about the side the inmates never tell the community or their families etc. Majority of the families don't know when your love one calls about a bunkmate (~~something~~ <sup>me</sup> to get the Warden to move them. It's because 97.9% of they are trying to get with their lover. They have you all stirred up to meet their selfish need. The girlfriend you know nothing about. Second be mindful when your love one call complaining about Lt, Sgt. or staff member mistreating them. Could it be they got caught doing something wrong such as smoking, unauthorized ~~prose~~ presence on the walk or in the room having sex with their girlfriend (in gets caught), stealing, cursing the staff out, trying to fight staff. Majority of the foolishness goes on in prison because of a lover. you have the boys in the women prison that have a girlfriend or just about every down. When the main girl find out then everybody want to fight.

you have the ~~whorish~~ whorish females that will open their legs with any stud. It's a girl in my dorm that has a new stud (boy-girl) every week. She is whorish. This individual don't care where the sex come from she got to have it. She has a mate coming to see her (male boyfriend). Do her family know absolutely not nor her mate in the free world. When a inmate is caught in the wrong. They go to look down. What does the majority do pull the mental health card. I am going to kill myself. But they want pull that card when they was doing what they want to do. Sometimes with the officials some of them pull that card so much when they can't have their way. Till you do what you suppose to in the situation but you never man says is she or he for real. Are this another scheme to get what they want. The staff get them the help they need, take them to safe cell or put them in one. Make all their rounds. These individual cut themselves, flood their cells and throw trays etc at the guards. Could you imagine the mental and physical stress these guards and staff go through. But these individuals are calling their loved ones complaining about the staff is mistreating them. All this behavior makes me sick to my stomach because why would you want to take your life when your the one in the wrong and doing all the foolishness up in these people jails and prisons. The families has no ideal. Then when the inmate die or something foolish happen because the inmate caused it. The family wants to file a civil suit or try to put the individual in prison. It's a lot society don't and family member don't know what the inmates does behind the walls. To solve this issue from keeping the jail and correctional staff jobs and lives

Instead of sending reports to the Parole Board only. Reports needs  
to get to family members. everytime you get a ~~text~~ Dr or go  
to look down or cutting up in these people jail or prison. The  
family deserve not to be in the dark. Because majority of  
the time the inmates only tell one side of the story to their  
family that is their side. There is no excuse for the  
ridiculous behavior in these people jail and prison. If  
anything these families members is horrible to deal with up  
in here. Just living with some of them is a nightmare.  
I had a bunkmate who did not brush her teeth, ~~with~~  
not washing his face and she didn't bath for week or  
days. Could you imagine the germs and smell in  
the room. Some of them will threat the next inmate.  
It's horrible up in here living with some of these people.  
This is coming from an individual who knows  
and live with other inmates. So stop reaching up  
certain things. Get all the facts first from the  
Warden, Deputy Warden, Lt, Sgt and staff. Because the  
inmates is doing wrong. The mentality of 2018's inmate  
is to do what they want to and when they want to  
because they are grown. When they can't have their  
way - they want to bring destruction to themselves and  
other around them. That just can't continually happen.  
These people jail and prisons. There are rules ~~in~~ behind  
the walls and society. We got to do what we suppose to  
when nobody is not looking. People in society you don't  
knows have what the staff encounter these jails  
and prison especially (prison). Ask them when you  
see a correctional officer, jailer or Warden in the  
store etc. They will tell you. Some days just don't  
make sense (the foolishness)
